Thread: [Users Viewing Threads](#)

Omniscient - May 18, 2023, 9:28 am

For now I have enabled it for all Ub3r/Vendor members to see in the header of showthread pages the "Users Viewing" the thread. In order to set this limitation Regular (non-upgraded) and L33t members can no longer see the Online List.

The Online List was suppose to be for Ub3r+Vendor only anyways.

Blazin - May 18, 2023, 9:29 am

I support this change, will be nice to see who is viewing your threads.

Omniscient - May 18, 2023, 9:31 am

Actually looks like perms aren't working right. Grrr...

Seaking - May 18, 2023, 9:32 am

I suddenly was able to see who was viewing a thread and was super confused. This is a really nice update!

I'll keep this thread open and viewed if it helps!

Will be nice to be able to see who is potentially interested in your products, possibly could send them a quick Pm/convo and try upsell or retain some sales or at least ask if they had any questions!

That's partially the intent for Vendors. For now it's also for Ub3r but I may end up restricting it Vendor only.

Stoke - May 18, 2023, 9:44 am

I fuck with it.

Never thought about it before, but seems like a nice addition.

Cooligan - May 18, 2023, 9:44 am

Omg this is amazing! I missed this feature so much, I always thought it was a very useful and fun feature to have.

Thanks a ton for bringing it back bossman ?

Skorp - May 18, 2023, 10:00 am

Dang this alien can't hide anymore D: I think this was on the footer last time if I'm not mistaken, can't remember fully. Nice change though!

POLLUX - May 18, 2023, 10:04 am

Nice feature, thanks for adding it!

Artisan - May 18, 2023, 10:13 am

Another great feature for Ub3r and Vendors. Thanks for this.

Please add this to the perks of being Ub3r that are mentioned in the upgrades page.

No, because it's likely not going to remain.

How reasonable would it be to make this feature a group subforum feature that leaders can use? Assuming group owners deem this as a benefit?

This is in response to it not remaining in the public forums, maybe it would have a place in private (group) forums.

Why? Groups are small and group forums not even that active. I don't see the benefit.

Nice, glad you added it.

Wasn't this available in the past? I remember we had something like that. Or it simply was the "Users online" bar at the footer of the site which I remember

Rough and early thought but thinking out loud.. If the feature won't be used publicly, maybe it has a home in private subforums. It would need to be modified, however. Rebranding the feature to a "Viewed in the last 24 hours" or potentially giving leadership ability to adjust between 24h, 48h, 72h, 1w.

It's a bit off-topic from this thread but would be nice to see what group leaders and members think. Personally, I think the benefits are:

Leadership can assess activity based off this

Members can communicate efficiently with those who've seen such thread

Overall, this would be a collaborative datapoint that can be used in many creative ways beyond what I can think of at this time

Or I'm just overthinking it and this would be over-engineered.

Yes, it was on the bottom. Moved to the top fold as I find that more valuable.

That's not how the feature works. It's literally based on real-time viewing of the thread. It is not a log of everyone who viewed the thread. What you're asking will not happen.

Cyam - May 18, 2023, 2:04 pm

Awesome feature, I missed it honestly!

SoulZeh - May 18, 2023, 2:16 pm

Not gonna lie, I thought I had Mentor or something before I saw this thread, wasn't this a feature a good while back or am I tripping?

Edit: ahh, read ALL replies, I guess I was right.

Lrrr - May 18, 2023, 2:26 pm

I thought you had said at one point you only wanted this to be a feature where vendors could see their own thread. As it stands, it COULD be used by competitors to watch competing threads and contact potential customers of other vendors to try and steal away

Always liked this feature especially when I used to be heavily involved in the marketplace, glad to see it's back (even if only temporarily) for Uber.

Yeah I like it much better on the top as well, much more noticeable and practical that way imo.

Parks - May 19, 2023, 8:03 am

Just saw this on a thread, it's awesome to see it back!! Thank you

Looks nice adds a bit of color to the forum, while providing some potentially useful insights.

Yes, likely what I'll do is write a more robust plugin for this. Looks like the hook location is a problem and I may have to do some core edits to accomplish that.

Since the feature does seem to be a hit what I may end up doing is having it display Viewers in Marketplace and/or Paid Sticky threads for Vendors only. But the rest of the forum will have it for Ub3r. Because you're right, could be used by competitors or leakers to be a pain in the ass.

I might even have time today to get this done. Gotta see what else is going on.

Nostre - May 19, 2023, 10:19 am

Borat approves. This feature is very nice indeed.

Biggy - May 19, 2023, 7:11 pm

Very nice feature. Great work here. Hoping that all members appreciate this addition, seems to be well-received.

Truth - May 19, 2023, 7:34 pm

nice feature, maybe useful to know if someone might be responding to your thread and it worth waiting around or something hehe

This.

It brings back that community feeling I used to get from it back when we first had the feature.

jcole - May 21, 2023, 11:45 am

I'm a fan of it and think that this was a good implementation.

SkullTraill - May 21, 2023, 5:34 pm

Big Cash - May 21, 2023, 6:50 pm

I'm ngl that small feature did alot brings life into the site just doesn't feel like you're really alone if that makes any sense.

OMSPK - May 21, 2023, 7:54 pm

Why for only upgraded members? Not complaining, just curious and wondering the reason behind the idea.

How to get ub3r? I really want to be empowered on the forum

(May 24, 2023 05:56 AM)alika Wrote: [\[CITE\]](#) How to get ub3r? I really want to be empowered on the forum

To get Ub3r, you must meet these requirements:

What are the Ub3r requirements?

Currently your account must be at least 60 days old, have 100 or more posts, and have at least a 50 popularity rating. If you don't meet all of these requirements then during the upgrade process an error will be displayed.

Once you meet requirements, it's \$40 for a one year upgrade. For more info, check out:
