Thread: [Finally - new Black Mirror season coming in June!](#)

UmerF - May 23, 2023, 11:10 am

I'm very excited. It's been forever and I'll even take an episode equivalent to the one with Miley Cyrus in it at this point.

Just psyched the show is finally releasing seasons again.

Fucking crazy

first EP done

I really hate this show because they talk about "diving deep into reality".

People sit here watching this knowing this is literally their reality.

Nothing a couple EMPs cant fix early on?

This season is pretty great so far - I'm kinda saving the episodes and watching one at a time when I'm fully tuned in for the day.

yeah this show is completely crazy, but feels so possible with a twist or two going into the future
