Thread: [How can I recover my account from 2008?](#)

d3p0rt - May 24, 2023, 9:19 am

I originally signed up in 2008 under the account name GhostSniper. How can I recover my account?

I was very young at the time but I would like to recover the account if possible. This is my first time back on hack forums since probably 2015.

When I look the account up now it says it is an unregistered guest.

I don't think it's possible if it's been completely pruned. You'd have to start over.

I was afraid of that. No biggie I guess. I wanted it for the sake of nostalgia more than anything else.

Not possible.

Welcome back though.
