Still looking for someone.

Hi, I can help you.

I've been E-Whoring for 12 years, started here in HF when E-Whoring looked like: Chatavenue, VCW's, Skype, and then later on things progressed to Kik, Craigslist, and eventually moved to Snapchat. I can give you alot of information & advice for free, and can give you some of my personal methods for a small fee, and I'd be happy to walk you through your first sales, either I can watch you while you're doing it and guide you, or give you screenshots, or we can do simulations together, etc, whatever you're comfortable with.

I can also provide you with alot of free e-whoring guides and paid e-books I have that I've bought over the years from HF & other vendors & sites.

Additionally, here are some things we can cover together: Obtaining traffic, snapchat accounts & management, and where to obtain quality aged snapchat accounts (you need aged snap accs these days as snapchat has changed their security and cracked down on e-whoring) social engineering,

bypassing verification, identifying different clients from buyers to time wasters. Ways of optimizing your sales flow and being more efficient to save time. OPSEC, safety and security. Some more personal methods of mine that I've developed from years of E-Whoring. How to double dip & triple dip, etc. Different types of earnings: such as Premium snapchat subscriptions, selling content directly (pics and vids), meetups, CPA & Affiliate Marketing (adult industry), Onlyfans (and OFM), etc. And long term financial planning, i.e; other digital marketing & entrepreneurial ventures & avenues you can dive into from E-Whoring-- essentially investing your money into other endeavors to make money online in different ways so you aren't dependent on E. As I view E-Whoring more of a short-term money making venture that is intended to give people the chance to get into more intermediate and professional digital marketing endeavors.

Feel free to reach out if you are interested in learning more, and same goes for anyone else reading this who is interested.
