Thread: [THE BEST CLOUD-LOGS DATABASE | 9.000.000.000 ROWS | COOKIE SEARCH | BEST QUALITY](#)

Mottle - June 1, 2023, 1:34 am

[MottleRows](#)

WE HAVE EVERYTHING TO MAKE YOU RICH

An automatic service that provides rows based on your requests in the format

URL:USERNAME:PASSWORD

Rows are deleted from the DB after search.

Functionality ([Click to View](#))

[Advanced Database Search]

Over 8,000,000,000 rows

Search by KEYWORD

Search by PHONE NUMBER

Search by USERNAME

Search by PASSWORD

Search by EMAIL KEYWORD

Search by EMAIL

With our beta version, you will receive all the latest updates before anyone else.

In addition, you will be informed about future updates and changes in advance.

[+] <https://facebook.com/>

[-] facebook.com

[-] facebook

You can search by URL without specifying the full website address or platform you want to find in the database. You can also search for matching file extensions, ports, protocols, and top-level domains.

[+] <https://facebook.com/>

[+] facebook.com

[+] facebook

[+] face

[+] website:20

[+] :22

[+] ftp:

[+] .com

[+] /admin.php

[Username Search Requests]

You can search by USERNAME FULL MATCH, which means that the username must match exactly with the username in our database.

[+] gamePlayer72

[+] xLiksa!_

[+] 231232

[Search Queries for USERNAME KEYWORD]

You can search for USERNAME without specifying the full user pseudonym.

[+] admin

[+] xenforoAdmin

[+] root

[Search Queries for PASSWORD]

You can search for PASSWORD FULL MATCH, which means that PASSWORD must fully match PASSWORD in our database.

[+] toor

[+] xqwerty123

[+] rzxcasdol3!

[Search Queries for PASSWORD KEYWORD]

You can search for PASSWORD without specifying the full user password.

[+] admin

[+] xenforoAdmin

[+] root

New [\(Click to View\)](#)

[Sub-word search]

The function of searching for sub-words in a keyword search using '*'.

Example: "site*admin".

This query will look for all domains that originally have 'site' in the string, followed by 'admin'. 'site' and 'admin'

can be in any part of the string, they need to be in the order you specified.

Examples of found strings:

['https://site.ru/aspx/nodes/admin'](https://site.ru/aspx/nodes/admin),

['http://123.321.12.12/mydomains/site/panels/cpanel/admin'](http://123.321.12.12/mydomains/site/panels/cpanel/admin)...

[Choosing the string format]

Methods of obtaining strings in Basic Search.

'URL:LOGIN:PASSWORD'

'LOGIN:PASSWORD'

'EMAIL:PASSWORD'

[Early limit reset]

Profile -> Subscription -> Reset limit

In the profile, 1 day of subscription is exchanged for a string limit reset.

[Removing subscription]

It implies the refusal of the subscription, if your string limit equals zero and the limit will no longer reset.

This is useful in cases where you want to change the tariff ahead of schedule.

[Number of requests]

A button to display the total number of strings per request in the database.

[Bulk requests in Advanced]

The ability to check in bulk, either by comma or by attaching a file with requests.

Now you can attach a file in the format:

username
username
username

Or you can use bulk search by entering requests separated by commas:
username,username,username

[Referral system]

Now you can get money on your balance, bringing friends or acquaintances to MottleRows.

[Cookie search]

*At the moment, this feature is not available to all users due to the integration of cookie strings into our service.

[Parallel search]

Parallel search for URL and USERNAME / E-MAIL was added.

— Example of usage:

{Input data}

instagram:@gmail.com

{Output data}

*Choice of output type to a file affects the result.

<https://instagram.com/:internet@gmail.com:password>

<https://instagram-nakrutka.com/:in2131ternet@gmail.com:pass123123word>

[Subscription customization]

*Currently available only through the administrator.

Implemented the possibility to create a fully customized tariff and purchase it.

Tariffs ([Click to View](#))

Because of the character limit on this platform, we can't list the prices here.

To check the prices for our service go to the bot

https://t.me/MottleRows_bot 1. type /start 2. Accept the terms and choose your language 3. Go to Profile 4. Go to Buy Subscription

5. Choose the tariff you'd want to know more about.

Contacts ([Click to View](#))

Telegram: [Admininstrator](#) | [Support](#)

Telegram Bot: [MottleRows](#)

Website: soon...

Advantages ([Click to View](#))

[Instant search]

The answer comes in a matter of seconds, no more waiting for hours to sort your logs, everything you need is here.

[Huge database]

You don't need to search for data all over the internet, everything is already here.

Over 200,000,000 rows in the regular database and over ~8,000,000,000 rows in the advanced database.

[Constant updates]

Every day we add 5,000,000 unique and fresh rows to the database.

[Maximization of profit]

The ultimate goal of our work is to maximize your profit.

We will do everything to make you profitable.

[Service is ALWAYS available]

We use a powerful cluster.

We don't experience overloads, restarts or unavailability.

If the service is unavailable for more than 30 minutes, we will give you 2 days of subscription for free.

[Multiple search options]

Make queries by email, login, phone number, keyword, password, and domain using two massive databases.

[SPOILER=What does this bot do?]

MottleRows is the best query cloud on the market.

Our service consists of more than 9,000,000,000 rows in total.

A row is a set of information in the format of "domain : login : password".

Our service consists of private rows, personal traffic, private, paid, and free clouds, as well as rows associated with governmental structures.

By using our service, you can find the password of practically any internet user.

However, we do not guarantee the validity or profitability, we are ready to help you but do not guarantee it.

It all depends on you.

Total number of rows - 9,000,000,000 Average response time from database - 0.5 seconds

Uploads per day - 5,000,000 rows

Server uptime - 100% [@MottleRowsChat](#) - Cloud Queries Chat [@MottleNews](#) - News Channel

[@MottleChat](#) - General Chat

[@MottleRows](#) - Bot We do not guarantee validity.

No refunds.

ROI is not guaranteed, we will assist you at all stages and do everything possible to ensure your ROI, also

we can help with private requests, but it all depends solely on you. [url=<a][url]

so technically you are selling breach credentials database search as service , you whole thread has no direct understanding of your solution, making it very indirect, plus the pricing part very suspicious ... (you have more than enough place to publish your pricing), too shady shady post

Good evening, dear users!

At the moment, our support Telegram account @MottleRows_support is unavailable and is no longer an active contact.

For some reasons, it has been deleted. Tomorrow, we will restore our support services. Those who haven't received a response or solution to any issues are kindly asked to reach out to these contacts - @MottleJ.

Please pay attention to the fact that we will NEVER initiate contact with you first, with the only exceptions being partnership proposals accompanied by all necessary evidence to verify our identity.

We apologize for any inconvenience caused. All users with an active subscription will receive an additional 48 hours to their subscription period.

Best regards, MottleRows Administration.

These guys have a great platform with a seriously effective query process and all sorts of options!
Definitely recommend! [warn]

Hey, dear users!

The contact @MottleN is no longer valid for communication due to issues with a persistent spam block and authorization reset. Unfortunately, it's impossible to be 100% immune to such situations, but we promise to take measures to prevent this from happening again.

? Our new and only contact for communication:

- > @Mottles <-
- > @Mottles <-
- > @Mottles <-

or <https://t.me/Mottles>

!! Our staff will never initiate contact with you first. We will never ask you to transfer funds to a wallet or card. All transactions related to the MottleRows service are carried out only through the bot - @MottleRows_bot. Beware of scammers and always verify contacts before taking further action. !!

? The new and only current chat is @Mottle_Chat.

If you asked a question or reported an issue on the previous account and did not receive a response or a solution to the problem, please contact us again at @Mottles.

The MottleRows team sincerely apologizes for this incident.

? We have added 96 hours to the subscription of all users with an active subscription.
