If you wish to get rid of your Bytes for a fair price, feel free to do so here!

I'm happy to pay 2.10\$ Per 1,000 Bytes. Any modern Crypto or Cashapp.

Minimum: 1,000 Bytes.

I will not go first.

LTC, XRP, XLM are typically super cheap & super fast transfer times, therefore preferred. I cover first 2\$ in transfer FEE, you must repay more Bytes at the same rate if it's more than 2\$. Eg 2.10 per 1,000 bytes. EG if total transfer fee is 5\$, take away 2\$ and you're responsible for 3\$, converted to Bytes, that's 1,430 Bytes extra. $(3.00 / 2.10) \cdot 1000$

Maximum: 20k Bytes.

When I have sufficient stock I will close this thread until I need Bytes again.

Thank you!

Great! I just started the contract. I'll send the bytes over as soon as you accept the contract.
