Thread: [can someone recommend me a good private FUD crypter](#)

confusp5454 - June 9, 2023, 4:01 am

can someone recommend me a good private FUD crypter which possibly has also an auto change of the file option when detected

and also must 100 % bypass the Microsoft defender

kindly help out theres so many out there...

asking on a public forum for access to a software that is private is not a good way to go about getting what you want.

why would a user who doesn't know you offer access to a private software, considering the risks of poor use?

Depends what rat/stealer u using native/c?

When u ask for something provide proper details bro

ImComplexed - June 22, 2023, 7:16 pm

I can show you my crypter.I offer unique private stubs and long fud time
