Thread: [My GPU,CPU and ping spikes up](#)

TheOneButWhichOne - June 10, 2023, 4:56 am

When I play games on my computer randomly my gpu usage my cpu usage spikes up and my ping also spikes up from 40 to 200. Is it possible that I am infected with malware?

Thats not really randomly now though is it?

Your utilizing a Resource intensive game.

Ever thought of monitoring which process is causing the spikes???

Just sort by the CPU/GPU
