Is there any way of getting a lifetime star rider subscription for free? I would be so grateful

I once dated a crazy horse girl that used to be obsessed with this game. She fit all the stereotypes

XD I wouldn't call myself a crazy horse girl, but I just enjoy the graphics and the quality of the game (also it is one of the few games that will actually run on my dusty old laptop xd)

So I had absolutely no clue what was being referred to and naturally had to look it up. Definitely don't have interest in such a game, but I suppose it doesn't hurt to know it exists ? Always interesting to know what all is out there.

To be honest I played it with her a little bit too it wasn't bad, those races were a little fun but the game is definitely a goldmine if you're looking for that type of girl
