Thread: [Signature image doesn't exist when updating signature in sig-marketplace](#)

DashPHP - June 15, 2023, 4:53 am

(Apr 14, 2023 07:04 AM)Jinu branched='true' Wrote: [\[CITE\]](#) I receive an error message stating "Signature image doesn't exist" when attempting to update my signature using an Imgur link. Could the issue be on my end or with the website?

I am experiencing the same problem. :/

This happened to me before with imgur. You can use imgbox, this will probably fix your problem!

https://prnt.sc/WMsA_U9tQUTN uh oh.. haha

I'll quickly try a different provider.

Oooh. You're right. .com is the correct one. It's a slow upload for 500kb haha..

edit, nvm browser just dumb.

https://images2.imgbox.com/19/37/2gDhlynz_o.gif there's the url, will try it now.
Okay yep, imgbox works fine. Seems like HF has a filter against Imgur?

If that was the case, my images in threads would not load.

But I cant update my signature either, just gives me Image does not exist, despite working in

preview mode?

I haven't attempted to update my personal sig, but yeah same issue with the sig-marketplace cp. Can preview the image but not update.

[Omniscient](#)

S.O.S.

Save our Signatures ! ?

Omniscient - June 15, 2023, 9:16 am

Looks like tunnel connection went offline. Fixed.

Tbh I had this issue and Sky helped me, I think he mentioned it might have something to do with imgur.
