Thread: [\[FOREX EXPERT ADVISOR \] \[BOT \] Highly profitable almost completely passive income!](#)

Jxckk - June 16, 2023, 10:00 am

Hey everyone,

Got a Forex Expert (EA) for sale that's been making me some decent profits and is completely passive basically, other than on high impact news days I've just been turning it off.. Since some of you might find it beneficial too, I thought I'd share it here.

Here are the main highlights of this Forex Expert Advisor:

1. **Consistent Profits:** This EA has been generating consistent profits for me, and I'm genuinely impressed. It utilizes advanced algorithms to identify potential trading opportunities.
2. **Increased Market Coverage:** One of the great features of this EA is its ability to scan up to 30 currency pairs simultaneously. It ensures that I don't miss out on potential trades across various pairs. This wider market coverage has helped me seize more opportunities.
3. **Customizable to Your Trading Style:** The best part is that you can customize this EA to align with your trading style. Whether you prefer a more conservative or aggressive approach, the EA can be tailored to suit your preferences and risk tolerance.
4. **Lifetime Access:** Once you obtain this EA, you'll have it for a lifetime. There are no subscription fees or hidden costs. It's a one-time investment that grants you permanent access to the EA, providing long-term value.
5. **User-Friendly Setup:** Setting up this EA is straightforward and user-friendly. Even if you're not particularly tech-savvy, the instructions are clear and easy to follow. It won't consume much of your time or cause unnecessary complications.
