Thread: [EXCLUSIVE \\$300+/DAY PROFIT INVESTMENT METHOD + MENTORING MM NOW ACCEPTED](#)

Oh Host Yeah Bud - June 16, 2023, 10:04 am

Temporarily On Hold, will be back soon.

Any one bound to me with a contract still doesn't have the right to talk about any method we shared or give details or resell it.

No one is gonna trust you with their money if you provide no proof or whatsoever.

Do you consider giving a vouch copy maybe?

I can't give too many free copies because of the nature the method, but hmu on telegram.

Rishabh - June 16, 2023, 10:36 am

Messaged you on Telegram already.

Oh Host Yeah Bud - June 16, 2023, 12:12 pm

2/2 Vouch copies already given, please do not contact me about this, there will be no other free mentoring.

Are you willing to use a middleman until profits are made?

lulzcat - June 16, 2023, 3:25 pm

(Jun 16, 2023 03:01 PM)Sheeple Wrote: [\[CITE\]](#) OP provided me with a free copy of his method, and I'm here to offer an unbiased review.

The method is not new; it was used a lot and stopped working about 6 years ago. But this person found a way to make it work again - not sure if they're super smart or just got lucky.

I learned the method quickly because I knew the old version. We tried it out and I made a surprising \$317, which is insane and a lot for the little work I did. I can confirm that the person who posted this earned 1.08 Bitcoin because I saw the evidence during the mentoring.

But, there are some downsides. You can only do this once a day, and it requires a good amount of money to start. OP failed to tell us that part.

I think the method won't work after a month or so, or to be precise the platforms he use it with, but it could have lasted longer if author hadn't shared it. That said, you might be able to change it a bit and keep it useful, i think the most important part here was the trick he introduced to the old version so once you know this you'll be able to make profit on other scenarios

I think that's exactly why OP is doing, he definitely has a backup plan based on how cheap they're selling this.

All in all, this is definitely a good deal. The Method actually works, will make you at least a few grands for sure, and doesn't require waiting, will keep doing it myself!
How much do we have to outlay to begin making profit?

OP gave a vouch copy, i can confirm OP is either a genius or the luckiest guy out here to discover such process, the method is literally a gold mine, it's eventually gonna run out of gold so either buy it early or don't

the only sad part is that you need a tremendous amount of money to start with (800\$) which i didn't know in advance so i had to buy it using fiat

Other than that i absolutelty vouch for this method, one of the only ones that work as promised in HF, made profit in less than 24hours and will do it again

Thanks again bud!

This looks interesting. If MM is accepted I'm down.

He said he won't use a MM so if he changes his mind, I would be interested for sure.

Oh this is so sus when someone declines to use MM. Why would you do it if your method is legit and working :(

MrCarco - June 18, 2023, 2:07 am

For your information I offered OP a middleman deal which is : middleman will hold the money until he deliver the method and I check it, no need to get my money back to send the money.

Let's see what he say.

fsociety_ - June 18, 2023, 1:13 pm

I bought the first copy, I dont have enough money to start it but method actually seems really genius and legit. Glad that I bought it! will update

Oh Host Yeah Bud - June 19, 2023, 11:20 am

Happy to announce that MM is now accepted

Sheeple - June 20, 2023, 12:23 pm

This is shady. Proceed with caution.

SIM-4791795 - June 20, 2023, 7:52 pm

I'm glad nobody is feeding into this. It seems completley off. Proceed with caution.

Nice post after asking desperately for a \$150 discount because you can't afford it, your username suits you well.

Strangely enough, you respond to customers who want to negotiate the price but not others:

The only thing I've asked for is a middleman deal that keeps the money until the method is delivered only.

A contract is already started, hoping you won't ignore me forever ?

Changement - June 21, 2023, 1:44 pm

Grey hat in what way?

Do we need to take security measures or is it unethical?

Do we need more money to invest other than the price?

How often are the payouts?

What is the risk if it's Grey hat?

What a low life scum, I knew that was your plan from the beginning when you said the method will expire in your vouch

So Sheeple took out his vouch and trash talked the thread because OP said he's a 'retarded idiot' for saying that the method will expire in a month, which is not the case, he just used that as an excuse so that OP doesn't sell it to new people so that sheeple keeps using it with as few people as possible

This scumbag already made almost \$2k from day 1, I personally saw his wallet.

You can still fix this, think long term and unblock us on telegram.

So you are somehow connected to OP ?

This means your vouch should not be considered.
