Hello all!

My name is Simtastic1, most of you know me as Seraph, or just some retard on the internet. Today, I'll be diving into a deep explanation of the Hackuman system.

You just received your FIRST Hackuman egg.. What now?

Quote:Firstly, your egg will appear at > <https://hackforums.net/hackuman.php> < (for some reason this link is really hard to find if you lose the egg notification?)

You'll need to feed your egg to hatch it.

This part is pretty basic, and doesn't need much explaining. If you're unable to hatch your egg because you lack bytes, PLEASE send me a direct message. My l33t subscription was gifted to me, so all the bytes are going STRAIGHT back to the community!

Basic Intro: Your First Adopted Stepson/daughter

Quote:You've just hatched your egg, he's a little naughty boy.

Let's explain the Hackuman system.

You'll most likely start out with something like this.

Your Hackuman consists of 2 types of attacks.

Special - CAN ONLY BE DONE 3 TIMES A DAY

Attack - Does a % of your attack bar

You can find battles here - <https://hackforums.net/hackuman.php?action=battle>

You can level up your Hackuman by engaging in battles, I suggest searching for battles by changing the filter.

Quote:If you're reading this at 6/18/2023, then DemonAsylum owns most of the low level market. IF YOU DO NOT WANT TO BE ATTACKED. FARM YOUR PET QUANTITY. DO NOT ENGAGE IN BATTLE. TRY TO STATEGICALLY ATTACK WHEN USERS ARE OFFLINE. ONLY ATTACK IF YOU'RE ABLE TO KILL THAT TARGET.

PLEASE BE AWARE THAT YOU MAY LEVEL UP WHILE ATTACKING, CAUSING YOU TO GET INSTANTLY KILLED IF YOU REACH A HIGH ENOUGH LEVEL BRACKET. AS OF 6/18/2023, NEW PLAYERS DO NOT RECIEVE IMMUNITY. YOU WILL BE KILLED, AND YOU WILL NOT BE SPARED. PLAY CAUTIOUSLY!

A big important step into Hackuman is the shop system. Familiarize yourself with the shop.

Here is a basic overview of what every item does.

Quote:1. Attack & Power

Increase your attack power with these items

(TL;DR, CHARGE YOUR ATTACK BAR INSTANTLY, ALLOWING YOU TO ATTACK BACK TO BACK!)

2. Food & Hunger

Hungry Hackúman? Reduce feeding costs with superior recipes

(TL;DR, Feeding raises your bars, passively healing your pet and increasing your attack bar. This item will make feeding your pet cheaper, so you don't have to run through the same amount of bytes as you would normally with feeding. (amazing if you have multiple pets))

3. Concealment

Hide from your enemies with invisibility potions

(TL;DR, it's a forcefield. you won't be seen, and won't be attacked. amazing for attacking then going invisible right after to troll your enemies.

4. Health & Healing

Use these items when you are low on health

(TL;DR, health boost items. restore your health bar instantly, pretty explanatory.)

5. Special Items

Items that aid you in unique ways

(TL;DR, not worth it until you have a extremely goated/high level character. don't even bother with this dumb shit.)

So. You understand how the battling system works, and you also understand the shop!

Quote:What's next..?

Grind. Post on hackforums, get your bytes, and stay active.

Try joining a crew, or even add to this post your own experience!

Let me know if I missed anything, or let me know any suggestions you might have! Appreciate you all.

Other than it is TL;DR not TD:LR. Because it's supposed to be a short summary of previous texts.

Hoping to see you more on the HUM game. You need to enjoy playing the game, the more you stay with the game the more you dig useful information about the game.

Lmao that was just part of the game. Crew with members who actively playing the game dominate the game ?

That's kind of the problem, no other crews build to play HUM because all of the main HUM players are in one crew.

Wouldn't be surprised if it eventually turned into a big Free-for-All tbh.

Can't hate on it though, I'd do the same thing if I were in that position.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
