Thread: [\[IG/TIKTOK/REDDIT\] Social Media Email Scraping \(VOUCHS COPY AVAILABLE\)](#)

simtastic1 - June 18, 2023, 3:44 pm

Hey everyone,

I wanted to introduce my service called Social Media Email Scraping. We specialize in scraping social media platforms to gather valuable influencer information for various purposes.

Here's how our service can benefit you:

Find Collaboratives/Affiliates: Our data scraping capabilities enable you to identify potential collaborators or affiliates for your product. With access to influencer information, you can reach out to influencers who align with your brand values and establish profitable partnerships.

Build and Sell Influencer Databases: Are you interested in building an influencer database and monetizing it? Our service provides you with the means to compile comprehensive influencer databases and sell access to other individuals or companies. It's a great opportunity to generate revenue while helping others connect with relevant influencers.

Promote Your Brand: If you're looking to expand your brand's reach, we can help you find influencers who are willing to promote your products or services for a fee. You can create your own management or promotional company and leverage the power of influencers to enhance your marketing efforts.

Onlyfans/Webcam Owners may find this useful, allowing you to gather influencer information from these platforms to grow your team!

If you're interested in utilizing our service or have any questions, feel free to reply to this thread. If you're interested in hiring us, please send me a private message using the form below. I'll be more than happy to assist you!

Code 1. What business are you in?

2. How many emails are you looking for?

3. Target niche?

4. Do you need email personalization for each influencer?

(We specialize in making personalized, rewarding, high converting emails for each individual influencer! From there, you can just copy and paste!)

Looking forward to hearing from you all!

Best regards,

Simtastic1
