Thread: [is Diablo 4 worth getting? Diablo 3 sucked](#)

Superrrr - June 25, 2023, 2:30 pm

I played Diablo 3 for like 3 months beat it and then realized it was some sick compared to what d2 was.. but I heard d4 is better than D3? It's \$70

SashaBeliy - June 25, 2023, 2:34 pm

I hear really good things about Diablo 4.

All I hear is good things about Diablo 4 other than the random DC's in Hardcore that kills your character. Other than that, it's probably highly recommended.

1 guy got dc'd on his hardcore character at level 99 with 1 bar left to 100. Dude lost his mind, I would have too.

Nah he reached 100 and Dc'ed and the way he was compensated was with a temporary experience boost lol. Theyve patched that though.

Honestly the old days diablo was goated, i dont know about the newer versions

KrypteX - June 26, 2023, 1:54 pm

A lot of people are finding very little to do after level 80 and either quitting or giving the game a break, it has a long way to go to live up to even d3 standards

UmerF - June 26, 2023, 9:00 pm

D4 is definitely 100x better than D3 ever was. They really listened to feedback from people who were into D2/etc.

But until they release S1 - it's kinda like they finished the game and took 30% of it away to keep for S1 lol

If your ready to starting in that grind again honestly.

I have never played a diablo game and this is the first one I bought and absolutely obsessed with!
If you want to try it out without buying it try checing out "Reflection Diablo 4 server" if you download and use it, using a vpn connected to germany can fix most desync.

ChumChum - June 30, 2023, 1:19 am

All these comments made me buy the most expensive game in my life \$100!!?

Colioo - June 30, 2023, 2:10 am

Better than D3 thats for sure.

Not as great as D2 - Its worth buying imo.
But play with friends! is way to boring alone.

Exactly - July 1, 2023, 1:17 am

I like it way more than Diablo 3. I think it's worth buying. Been having fun playing it. I think it will come to game pass soon if you want to wait a bit before dropping full price on it.

DemonAsylum - July 7, 2023, 8:07 am

I played Diablo 3 a good amount both at release and then years later and I personally feel as though I'm enjoying Diablo 4 more. It's still very early with the game as well as with so much to come in terms of quality of life changes, seasons, expansions, etc so it should only get better. I'd recommend it.

Lyrice - July 15, 2023, 9:51 am

Is it possible to buy it cheaper somehow? With Turkey VPN etc.?

SIM-3395440 - July 15, 2023, 11:58 am

I will wait till it gets cheaper and maybe play it but it gets boring i think

Tyler? - July 15, 2023, 2:05 pm

I've been enjoying it since it came out.

I've played 3 characters so far. Excited for the season to start next week.

The more diablo games that come out, the farther they get from the core game of diablo. The TRUE diablo experience if you are searching for it is diablo 2 or diablo 2 remastered. Diablo 3 didn't even have runeword's which was one of the MAJOR systems that made people enjoy farming in d2. Diablo 3 also leaned HEAVILY into the "cookie cutter" meta, meaning that each class had basically 1 viable set of gear and 1 viable set of skills and if you didn't play that build you were quiet literally griefing yourself. Diablo 4 again doesn't come with the runeword system and again follows this weird cookie cutter mentality of not giving their players freedom of making other viable builds.

Everything after diablo 2 should of just been a new IP all together.

Rant/Rage over.
