Thread: [MAKE RISK-FREE MONEY FROM STAKE \[PASSIVE INCOME METHOD\] GUARANTEED MONEY](#)

**SashaBeliy** - June 26, 2023, 9:03 am

You probably wonder, how are we going to make risk-free money from a gambling site?

I know this sounds very hard to believe but there is an actual way to make risk-free money on Stake.

This method works only on Stake.US so in order to do it, you need to be either from the US or have someone to verify your account for you. Stake US have a specific promo that we are using daily in order to make risk free money.

The main idea of this method is to make money from the bonuses the site offers.

You are basically wagering a lot of money on the site for free and you earn money from rakeback, and bonuses.

I'm also teaching you other ways to make money from the giveaways they make (bonus drops, forum giveaways, streamers giveaways)

This is a progressive method which means the longer you do it for, the more you start making over time as you progress into their VIP system.

There is absolutely no way you end up losing money doing this method as you will only play with House money.

It has great potential, if you manage to scale it well you can earn thousands per month risk-free.

I recommend this method to people having at least \$500 or more to invest (recommended investment is \$2000 which is the maximum deposit amount per day on Stake.us)

Full method + mentoring price is \$200

Basically as what he said in the main post, the method involves bonuses and playing with house money after an initial deposit.

The longer you play, overtime the more rewards/bonuses you will earn and the more money you can earn as well.

The risk of this method is low. as it is gambling, you will definitely lose some money (lets say \$5-10 for every \$1000) but you can make the returns back from the bonuses itself.

If you have the time and money to put in, give it a go, the risk isn't big.

Method doesn't seem too private, though, I'm sure most people with enough time on stake know how to do this.

Can we see some earning history from yourself?

To anyone interested in buying, please use a middleman as OPs account is relatively new.

Hello, are you offering any vouch copies?

I don't gamble, but i'll take the risk to give you a proper vouch.

I think I have 3-4 LTC laying around somewhere lol

3-4 LTC is not enough for this method.

3-4 was gonna be gambling \$, i have no issue putting in \$500 to test out the method for you & even give you a vouch for it if it works out

(i'd like to assume i'm reputable enough where people will believe my word)

If you want me to try the method out & provide a vouch (depending on it working), i'd be more than happy to risk the \$500 (the amount you stated is needed to start)

If not, then GLWS, OP.

I will trust your experience in the site to provide a high quality review :)

This method , still works fine as you say ? And any other reviews here , as the last one , says that this is not too private ...

Yes, the method works fine and you are guaranteed to make money.

The reason why he said it's not too private is because there are other people who are doing it on Stake.us for living as it's guaranteed risk-free income.

I think the price is even cheaper comparing to what you get for it.

With this method you can easily make thousands every month with 0% risk.

Bought the coaching from Sasha. I can tell that he does what he teaches because he has very detailed knowledge and answers for every question I had. The method is also pretty well publicized and can't NOT work. I'll update the thread with a more detailed profit report in the coming weeks.
