FAQ

"What's this ebook about?"

This is an unique method to get insane amounts of traffic for the adult niche. eWhoring, CPA, OF Managements.

"Is this saturable?"

I can't imagine this method getting saturated anytime soon

"Where is this method from?"

This is a method that i thought off when i couldn't catch a break while managing OF Models. This changed everything.

"If this method doesn't work can i get a refund?"

Yes. As long as you can show me it doesn't work. But i cannot imagine that happening

Waiting for the review!

I have received a vouch copy. I think this is an interesting method combined along with an automation method to help you out to gain organic traffic fast.

I don't really think this method will get saturated though. This method teaches you a concept.

Its common sense but once you know how it works you can apply this else where as well as tweak or use a better tools whatever traffic tools you know out there though provided If you got the SEO knowledge which will actually help you big time since in here OP only introduce you 1 automation method.

Ebook is very clean, I find this method interesting or maybe I should say quick simple and common sense? If you know how to manage an adult social media I am sure you know how it works but this guide have another unique method, learn it and you can modify and make it even better and gain much bigger traffic.

Thanks for the vouch copy , OP.

I received a vouch copy of this and below is my review of the same:

Layout & stuff

Easy to read & follow. No fancy stuff going on just straight to point.

Method

It is using a simple method but there is a quite ingenious twist in it which will I think make it worthwhile. There is some work required and it is definitely not for the lazy people but by using my common sense, I can definitely see this working. You will most likely get some genuine traffic your way.

Overall

I would suggest people in the ewhoring genre can definitely utilize this to good use. For other people starting out, it can be little time consuming but then everything will be if you are new to the field. Overall a good method for people who are already in the adult niche.

Thank you [Cunt](#) for providing me a copy. GLWS!

First of all, thank you [Cunt](#) for the vouch copy, here are my thoughts about it:

The book is written in a grammatically easy-to-understand manner, making it accessible to readers

without being a grammar nazi.

Unlike many other e-books, the author also highlights what NOT to do, offering a well-rounded perspective.

If you are looking for something which will make you mint money without doing any work - this method is not for you. This requires some serious dedication and consistency, but if implemented correctly, the results are almost guaranteed.

If you are someone who is into E-whoring, you might have implemented bits and pieces of this method, but there are few hacks and tricks which can help you semi-automate or even automate the traffic.

Overall: It's an easy to understand method to generate traffic on social handles. It's mostly inclined towards someone who is into adult industry / e-whore, and can help you automate or semi-automate the traffic and make more bank.

These review don't mean shit to me, and possibly any serious buyer, simply because: They are extremely vague

None of them are either positive or negative. I felt like they were written for the sake of it rather than giving some actual, beneficial insight that potential buyers might find helpful

They seem like a copied version of each other, changed up by ChatGPT (I know this didn't happen, I'm just saying how it looks)

Sorry, but giving out 4 vouch copies to people who will write a lazy, short review only cause they NEED to won't boost your sales.

I know that obviously you won't disclose the method, but you don't really expect people to blindly buy into this not knowing even slightly what they're getting. Your thread is all motivational words, but zero context on what we'll actually be doing. We are lucky that some reviews mentioned e-Whoring - so what if someone who is really against it bought your method?

I'd be interested to know more about the method. What does it consist of?

Agreed, curious also as to why you are selling the method at all? Nevermind for \$45 if it generates an insane amount of traffic? Why not gatekeep? Interested in buying all the same just seems a bit vague

I stopped being an ass thinking that if someone sells for \$xx and makes \$xxxx then it must be a scam.

I believe that every method can make you money as long as you're consistent and WANT to make it work.

The only exception is if you're legit unable to execute the method because of location, age etc.

I'm currently discussing with OP about an extra vouch copy. I'd be happy to review this method properly and put it to the test as I have some free time on my hand.

Because this method can't really be saturated. So why not earn extra cash myself by letting people in on my method and making sure other people also earn a lot of money.

It's a win win.

A quick disclaimer:

I've sent a contract for vouch copy to [Cunt](#) so don't think I'm posting a review without receiving the copy. If he denies it, I will delete this review, but I wanted to post it as soon as possible for potential buyers to see before they buy.

Very misleading product.

First of all, thank you OP for providing me with a vouch copy. The eBook consists of 12 pages, featuring 2 pictures and rest of it is just wall of text.

The very first thing I want to mention is that this whole thread is very misleading. This is not really a money-making method, but instead a way to get traffic to your eWhore account. That means that if you don't already have extensive knowledge about eWhoring, or if you don't manage OF models, this method will be of no use to you.

The only places where you vaguely mention the real purpose of this method is in FAQ and in one word in your title (traffic), but most people (including me) may fall for the trap thinking this is some unique money-making method because wording in thread design is structured that way.

So to summarize - this ISN'T a direct method to make money, so don't buy it expecting it is. This is a method to get MORE TRAFFIC to your Snapchat/OnlyFans.

The actual review.

Now that that's out of the way, let's do the actual review of the ACTUAL product.

The traffic method is solid on paper, but has some flaws: It talks about tool that will automate your traffic process, but it says nowhere that it's a paid tool. The plan you will need (based on what he talks in the method) costs \$7.99 - \$15.99 per month. You CAN do this manually without the tool, but it's extremely tedious.

He says you can do this with NEW account on the platform, but as someone who used the platform REGULARLY to get traffic to my Snapchat, I know this is NOT in fact possible with NEW account. This means you will have to invest a bit more money into AGED accounts for the platform for this to work flawlessly.

Even with AGED accounts, you might still encounter a problems where you have to Photoshop names on piece of paper. In guide, he simply says "get creative with Photoshop" which is absurd because it's not as simple as that. You have to actually do a solid job and actual people review these cases and it sometimes takes a few weeks to get accepted (I did it so I know)

While this method works on paper, I believe that it's waaaay too much work for potentially small return. You have to rely on people to complete the task for this method to work and while the task takes them minute or two, I believe that only small percentage of people will actually complete it.

While I won't disclose the method, I believe it's better investing in an aged account and just post

stuff. 1 in 10-20 posts always gets attention as far as my statistics go.

Final thoughts.

Sorry, but I just can't recommend people to buy this. I'm not trying to bash your sales or giving you a bad rep, but paying \$45 for this is absurd to me. Firstly, because as I already said, this is misleading. You should marketing this fully as what it is - A TRAFFIC METHOD FOR EWHORING.

And even if it was marketed that way, the whole eBook is lazily written. Most of the stuff that need further explanation (like automation tool for example) are straight up ignored. He never explains how to ACTUALLY use it even though it's crucial part of the method.

And then again, even after it was better written - the method to get traffic, while could work, is too tedious to do. Simply posting without the twist OP provides can bring you results.
