SashaBeliy - July 4, 2023, 7:29 am

Hey everyone !

I'm selling the exact method I've used in order to make over \$30 000 in 1 month.

The method is really simple to execute and can be used worldwide.

Setup time is about 20-30 minutes and you are ready to start earning from there.

Payments are daily and in crypto.

You don't need any experience in order to earn with this method.

The method requires investment \$300-500 is recommended to start with (I personally started with \$1500)

The method is scalable.

Doesn't have age requirement.

Doesn't require you to talk with other people or sell anything.

I will be selling only 5 copies for this method. Upon purchasing you receive:

-The method

-Daily support

-Proof of my earnings with it

Pricing:

Copy 1: \$250

Copy 2 :\$300

Copy 3: \$350

Copy 4: \$400

Copy 5: \$500

Sasha has been walking me through when to make the changes everyday, he responds right away and has been coaching me every step of the way... I can see this as a great potential to have as a side hustle. You do need at least \$200-\$300 as an investment, but once you do you'll make great earnings... Ill update once I've made more...

I shown all proof I made over \$30k in 1 month doing it (not crypto transactions) but proof in the site itself that can't be faked. Hello everyone, here is my review, screenshots don't lie:

First was the first 12 after added balance to bustapit and followed the script (I made like 40\$ in 12h), the 6/7/23: <https://imgur.com/a/zE2SePM>

And today, here is my balance: <https://imgur.com/a/9qk1M5M>

Conclusion: I followed his method, I applied his script. It was too good to be true, don't fall for it, you will lose money 2 times, by buying this script, and then your investment.

He'll tell you it's bad luck, to sell more, but the truth is this: making 30K/month in autopilot is a dream, if not a lie.

Every buyer and person interested in the method that contacted me was aware that this involves gambling.

When it comes to gambling there is nothing guaranteed.

I'm indeed over 1 BTC profit from 1 month of playing and this can be easily verified (stats in the site don't lie)

I never tell anyone to put all his money inside (like I told you to only use 1/3 of them just incase a bust like this happen)

You never told me it was about gambling, your turned this into an "investment", which is not false in a way, and I accept it. But saying you are making 30K/month in autopilot is beautiful lie, you can be lucky and earn the first month, but gambling is gambling, casino is a drug, and there is a reason why it's called like that.

Anyway, I'm not here to trash your thread, you are just making money by selling a dream, like 99% of online sellers are doing. Nothing new in this world.

Have a good day anyway, no hard feelings, I was aware I could lose it.

Like I said I'm selling the method that made me \$30k in one month (in fact \$35k). I made over 1 Bitcoin doing this.

I never promised anyone that they will make \$30k per month or that they will guaranteed make money. It wouldn't make sense considering the price tag.

There is a reason why I provide my risk-free money making method as a bonus to everyone who purchase this method (so incase something goes wrong here, they can make their money back from it)

For all we know they can be multis.

Look at the list below of all past Bustabit script sellers that have been banned.

[Bustabit Script Seller #1](#)

[Bustabit Script Seller #2](#)

[Bustabit Script Seller #3](#)

[Bustabit Script Seller #4](#)

These "private" scripts are all variations of leaked scripts throughout the years since 2016 (or earlier)

I think the forum members need to be mass informed about this.

I still see many users getting interested in these scripts whenever a new forum member starts selling a Bustabit script.

Please know that these earnings are unstable because it's 100% gambling.

You are more likely to lose money.

If I refuse to release the fund, he will call me scammer because I received the method and said to everyone I wanted a free money method.

Lol classic Bustabit scripts dating from the time of black shadow(which was a complete disaster). Stop selling clients false hopes and just be honest with what the method involves. You may of gotten very lucky making 1.1 BTC in a month, however that isn't the same fate for everyone. There is a reason you're selling this method for a couple hundred dollars. If this was a real proper method, you would not even put it in the market due to saturation. Stop with the bullshit and refund the people you technically scammed.

Bro everyone that came to me I told him it involves gambling.

The user MrCacao was using a MM and he received method and proof of me earning \$30 000 before releasing the money.

He had a budget of \$540 to use. I told him don't deposit all, deposit \$160 incase of a bust we will work with the rest after that.

He lost the first one after being up over 120\$. If he listened to me and deposited his remaining amount, he would be recovered already and again on profit but he decided to start hating me here.

Gambling or not, tell me 1 seller on the forum that can prove he made over \$30k from the product he sells ?

Not every method is meant to fit everybody, that's why the selection is huge.

Also some of my methods require thousands of \$ to invest which most people don't have so the idea is to start with the small investment required methods, scale and start working on the big ones.

But why should I refund him ?

I provided him the method.

He had to use small deposit first and than incase of a loss do a bigger deposit and recover it all.

He lost his small deposit and refused to do a bigger deposit. My other customer also lost on the same time as him but he deposited bigger and recovered and is already on profit of over \$100+

100% the same old multi of the previously banned accounts that were selling gambling related methods. He just want to keep living from your money by playing with words, don't fall for this!

You should refund him because he's your customer, and he's obviously not happy with the method, so why wouldn't you refund him? You keep saying how you made \$35k in 1 month, then refunding him \$100 should be peanuts, and it would actually make you look like a trustworthy person... and not like a pos multi just looking to make a dollar by any means.

The way he is describing the "method" to use this script totally sounds like a previous script seller that got banned. (In the list below)

I would humbly suggest the mods to look into a possible multi here. And restrict sellers from selling these leaked scripts.

Here's a list of possible multis (all or some) selling the same script previously and got banned:

[Banned Bustabit Script Seller #1](#)

[Banned Bustabit Script Seller #2](#)

[Banned Bustabit Script Seller #3](#)

[Banned Bustabit Script Seller #4](#)

There's even a 5th one here, not banned but a possible multi:

[Bustabit Script Seller #5](#)

I don't think multi-accounting on various forms in order to scam would constitute living a good life at all. But you do you buddy.

I would be more than happy to refund OP if he followed my steps and lost, but since he didn't do it, I won't be refunding him. Not to mention he leaked my method. My other customer who lost on the same day as MrCacao is now recovered and on \$200 + profit because he listened to my steps.

Looks like you should of just refunded him. I hope you understand, when you create another account and try and sell the method again.. we're just going to report you again, and get you up outta here. Hopefully you'll get banned before you make any profit next time.
