Exchange your Crypto to Amazon Gift Cards on this forum or other apps such as Paxful, etc. You can use crypto nowadays to purchase anything online, on paxful you can buy walmart gift cards etc. aswell so you can literally go in store and spend the money on food or anything you want.

If you send me the equivalent amount in crypto + fee I can give you a virtual CC that you can use anywhere. I will ofc set a limit on it for the amount that you've send me.

Just use crypto and use sites like <https://paywithmoon.com> or <https://coindebit.io>

They should work just fine for you.

If it doesn't have KYC, looks like a good service for OP.
