If only we all did the same.

now Bitcoin is so valuable, most people wont even accept paypal for it unless you pay like 30%+ more

DashPHP - July 8, 2023, 8:05 pm

Mann PayPal had a sexy af chekout flow for 2010.

10 bitcoins under 5\$ man that hurts.

I also feel slightly concerned for the creator as his email and phone number is exposed.

ComputersRUs - July 8, 2023, 9:32 pm

That's a W. But the dip.

oRequiem - July 8, 2023, 11:58 pm

I remember a story where a guy had a wallet from way back then that had around 50mil or something and lost the password.

Pretty sure the conclusion was he gained access to it eventually months later. It was a wild read. Took it with a grain of salt though.

javierpena - July 9, 2023, 2:44 am

Thats really nice video infused with so much nostalgia for the good old Internet

Justinjacks239 - July 9, 2023, 5:13 am

Big ooof for that guy!

Blazin - July 9, 2023, 11:51 am

Apparently he took out the money a day later, according to the block chain.

Vibe - July 10, 2023, 7:06 am

Really insane to think about the amount of bitcoins we spent in stupid stuff when it was cheap af

R0SSGELLER - July 10, 2023, 10:09 am

Impressive price just since then. Still a very fluctuating coin though.

Because it's nostalgic for some, and others enjoy to see the past, eg: 2010

This makes me regret not being more informed about new and upcoming tech. I don't recall what I first thought about it, but clearly did not have the same mindset I do now.

Shoulda coulda woulda

KidGoku - September 25, 2023, 10:14 am

did you hear about the story of the guy who sold his bitcoin for pizza?

Mulatto - September 25, 2023, 2:19 pm

Check The Blockchain, cash-out few hours after.

KaliYugaVril - September 25, 2023, 3:01 pm

Man, how different life would be for me...

Biggs - September 25, 2023, 7:31 pm

I remember that video, I used to have 20 bitcoins in 2011 (the year that I joined this site). I wish I kept them, I sold them for like 4\$ each.

My lawd, I wish I had bought into them when I first started hearing about them. They were around \$300 though. If only I knew the potential.

Oh, imagine if we had realized that Bitcoin would become such a significant phenomenon in the future; we would have definitely held onto it.

10 Bitcoins at \$0.30 each in 2010 must be one of the best investments ever made.

Broheim - October 30, 2023, 4:08 pm

Isn't it the guy who threw his entire drive out and went on a hunt to search it? Or is it a different guy?

Cooligan - October 30, 2023, 9:24 pm

Holy shit he's even using CoinPal lol. Would've been hilarious if it was MtGox or btc-e ?

It actually hurts to watch this at that price point.

edit: Oh damn! The website he used to buy them is still online! <http://coinpal.ndrix.com/>

LOUD - October 30, 2023, 11:31 pm

Holy fuck, man. This somehow hurts to watch yet so satisfying at the same time!
