Thread: [Matrice's Web Development Service | HTML/CSS | PHP | JAVASCRIPT/JQUERY | SEO | AWS | GCP](#)

Matrice-hex - July 9, 2023, 5:28 am

Hello, I AM Matrice,

Professional Web Developer with hands on experience in PHP, JAVASCRIPT for 7+ Years.

I am experienced in Codeigniter, Laravel Frameworks along with CorePHP.

I am also experienced in MySQL and have built/optimized already existing queries in many projects.

I also have experience in deployment to AWS and Google Cloud along with Monolithic as well as Micro-service Architecture.

So, Are you looking to get your next project done in timely manner or are looking for someone to fix/complete existing projects ?

DM Me, Start a contract. All trustworthy middleman's are accepted.

TELEGRAM : @boizuka

DISCORD : hexkid

Commission to those who can bring some work as well.

Good discount for first customer as trying to build reputation here.

Have a good day !

Doesn't anyone needs any project done nowadays ? Let me know guys.

BingoDingo - July 11, 2023, 10:07 pm

Can you PM me with your avg prices, I run a web design agency but for more complex projects I might subcontract to you in future.

Hello, Can you PM me so the convo is started. I have an interesting proposition for you.

More details will follow in PM but I have an IT agency and I want to start working with freelancers so I can focus on getting clients in, and my freelancers can focus on what they do best!

Had a good conversation with you. Thanks.

Still up and available.
