Seller is selling a public script, and seeing him opening new threads about "changing your life forever" is enough for me to open this dispute and ask for staff to ban him. What he is doing is a scamming people.

Regarding the method: screenshot proofs of my bustabit account the 6/7/23:

And few days later: <https://imgur.com/a/9qk1M5M>

I discoverd from another HF member that he is selling a public script named "90x chaser". This is the proof: <https://imgur.com/a/aVGYSQ1>

Stay away from this scam. Better to ban him.

Did you get the MM to release your funds?

SashaBeliy - July 11, 2023, 6:47 am

We used a MM and he told the MM to release the funds to me. I don't see a reason for him to dispute me.

I said I'm selling the method that made me \$30 000 in a month and I didnt lie.

I'm sorry that you had to pay that much money for a bustabit script, hope you'll get refunded and this dispute solved soon

It's not like you didn't told him to release them

Just use this as a lesson mate, always ensure the method is working before releasing, as there isn't really a point using a mm otherwise.

as I answered to someone "but the worst in this story is that I didnt knew it was a bustabit script until I receive the method, so basically what can I do in this situation?

If I refuse to release the fund, he will call me scammer because I received the method and said to everyone I wanted a free money method.

So even if I told everyone I was aware of the bunch of scammy thread selling bustabit scripts, I could be banned to ask middleman to send my money back."

It would be up to the middleman's wether he refunded you or released the funds, but him finding out its a busta script would likely mean he would refund you as most people know its dogshit. You wouldn't get banned for that at all.

Well, I'm not sure but next time I'll do it.

What I don't understand is what is the point of using MM if all the seller has to do is "deliver the method"?

Like what a seller going to do? take payment and not send the method? Ever heard of anyone doing that?

Like if you are using MM, you need to be able to get the method, test the method, see if it is not something public/not as explained/promised & then only ask to release money. Preferably after you have made some money from it.

If seller is refusing to do that, you need to think & decide upon it.

But yeah, this is rather very unfortunate situation. I see this same bustabit 90x script sellers popup every few months.

Removed from COINED per our policy on Deal Disputes.

Will be added back if judgement from Omni is made in his favor.

This is why I'm not a fan of ebooks.

Dude if you use a MM test the "method" before ask to release the fund...

I'm sorry for your loss. I don't believe in this guy too.
