Are you giving out any vouch copies? I have experience with threshold accounts and could leave a good review and proof if they work.

issn't google grant just for non profits, there are strict rules for advertising through a grant.

I suppose it would only be useful for advertising a fundraiser or something correct?

shadowfriend008 - July 19, 2023, 6:15 am

Hi

Can call ads run on these accounts?

yes

yes

But can you use it for commercial purposes, like advertising your security website.

Can you tell me what you cant do.

I'm just a bit worried considering that it clearly mentions that its only for non-profits (<https://www.google.com/grants/>)

That's how they're setup for sure.

I don't use grants myself I just create, so I'm not the one to ask this really, but I do use the other threshold accounts.

There are a group of people who know how to use them and buy them frequently, but as it's a big purchase it's not really for the inexperienced.

That's not a good sign now is it? You might want to look for a more reputable seller on HF.

but is there on him any report about scamming or just you are saying that as he is not connected assiduously and for that reason is not a good option? All I see in his profile is trusted seller and he is not banned.
