Feel free to contact me on Telegram for more info. I know I don't have many vouches onsite but we've been offering multiple ban services since 2019 and all our customers are satisfied. I will always accept any trusted escrow.

Hey man! Nothing's involved, just give me the target number and it will get banned. Target will not notice it coming he will just get the surprise instantly.

If you're interested join the Telegram channel in my signature and contact me.

Feel free to ask me anything by the way

Ok great, i need to wait for some time as i had a big discussion yesterday with this person, i cannot do it now as he would know who its coming from. Give or take a couple of weeks and then i will contact you. Thanks for your time.

Tried his whatsapp ban service, yesterday he said the number i gave hom was banned, but reality is that its not banned. I will wait for OP to fix this and if he is not able i will ask for a full refund. I will update this post.

Update: OP explained why it was not banned the first time.

Same here, he told me the number was banned and when i checked a minute later the number was not banned. Now I have been waiting for more than 20 hours for him to ban the target, he keeps delaying it.

Also the number he banned for me yesterday for our first deal is already un-banned!

He now has \$200 USD from me, both numbers are still un-banned, wish I used a middle man!

When i asked for a refund he says that he doesn't have the funds. His TOS says if he fails to ban the account, money will be re-funded <https://imgur.com/wE4UmLI>

Just read what you type, if i fail to ban the account I'll refund. I did ban the account, what happens later is not my responsibility.

You banned 1 number which got un-banned within 24 hours. You posted twice on this thread twice saying that the ban is permanent, now you have edited or deleted those posts (screenshot below).

You told me on Telegram that the ban is "Not permanent but not temporary" Our first deal's number got unbanned in less than 24 hours, that is pretty temporary I wouldn't even consider that a ban, that is a temporary suspension.

I have bought a WhatsApp ban from another HF member and the number is still banned after 3 days, that is considered a ban.

The second number you have completely failed to ban and there is no proof of the ban.

Edit: User has re-banned the first deal's number let's see how long that lasts, the second number is yet to be banned it's been 2 days.. I have asked for a refund or swap for an IG account ban.

This user is permanently banned on 4 other forums for scamming.

Googling "igreport.xyz" speaks for itself. Will start deal dispute.

triplex - August 21, 2023, 9:39 am

SRT, how do you start a dispute on this forum? Thanks

sopa - November 22, 2023, 10:16 am

Stop scamming and start resolving disputes.
A perm ban is a PERM ban, and not a temp.

You've been banned from other communities, which is shady enough.

Update: bans take max 48h and bans are permanent. Escrow is accepted always

OP, could you explain your service bit more ?

If I provide you with a whatsapp number, you will be able to BAN it, correct ?

That's right. You send me a target number and i ban it. Service is done in a 48h maximum timeframe with a current average of 6h. Number can be business or personal indistinctly. Only fact that can lower the succes rate is age: if user has a bio from 2015 or older, success rate falls down to 70% and it can take longer than the others.

What are the chances of those whatsapp numbers being active again ? Or, is it permanent ban ?

PS. I am very much interested in this. Could you share your telegram ?

Bans are permanent.

Only thing i can mention is that if user is somehow active on forums or has some tech knowledge, he might find a method or perhaps contact someone to unban them.

I've had just a few cases like this, perhaps 2 or 3 out of some hundreds but still worth mentioning.
If target is not that plugged in or doesn't have contacts and such, bans are perm and safe.

Perm bans are available now. You can choose what type of ban you want. Temp (Spam) for \$60 or Perm (100\$).

Have had many bans done by @sopa over the last year - I was skeptical at first, but works like a charm.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
