Thread: [Im a newbie and I cant stand that everything takes 10 bytes](#)

M1rac103 - July 18, 2023, 12:40 am

I'm a newbie when it comes to HF but I've been scrolling around for the past 10 minutes figured out a couple of things, first off WHY DOES IT COST 10 BYTES TO SEE A LINK OR WHAT NKT EVERYTIME, I mean I get it they have to make money but starting with zero and getting only 5 for registering is pointless I feel like registration should give 10 so you can check out at least one item and yes I get premium exists but that's why I'm on here in the first place, I have no money, and just got let off is there a easier way to earn bits please help me.
(I'm aware this is the wrong channel but it gave me this and 3 others and none made since for this sorry I'm still learning if I need to take this down please tell me before banning please)

whatever you buy for 10 bytes is not going to make you any money...

Don't listen to this guy, 10 bytes surely can get you 9 rows of awards and a Mercedes Benz AMG in months.

Welcome to the HF forum. I transferred 100 bytes to you and I hope you can use it. If it's not enough, I can still transfer some to you

Just make 5 or 10 posts each day and you will get enough bytes automaticaly
