Thread: [Should I sell all or hold?](#)

Charaoh - July 18, 2023, 10:08 am

Thinking about getting out of crypto completely and wanted to know if any of these coins was worth anything in the foreseeable future? I invested allot but, in the end, I only hit once and it's not worth wasting more money to keep up with this. I can't even get my presale coins out because everything requires more and more money, so I just want another's opinion.

Convert all to 3.8 Litecoin forget for 5 years then reap the reward

Sell your Luna, buy a real coin like LTC or ETH and just let it rot in your wallet.

You'd be stupid if you sell now. This is near bottom.

What will be your future investment then if you get out of crypto completely?

Giga - July 18, 2023, 1:37 pm

As long as your positions aren't leveraged, then this is not the time to sell imo. BTC will likely bring all crypto up with it in the next few months. If your risk tolerance isn't very high than just hold BTC only, it has proven time and time again that it is the future of store of value.

Great input so far and I appreciate it. Patience is not the key in this case because I've been holding for a while lol and only gained maybe 2k total. However, I understand the value in all of this still, so I will hold for now and just invest in ETH, and research LTC more.

I got myself 1 BTC at 20k, and like 10ETH at 1400. Anyway I'm chilling rn wouldnt recommend buying rn. I think we'll get another crash soon. Wrecking all alts before finally moving up.

Blazin - July 18, 2023, 3:25 pm

Depends, do you need the money right now? or can you wait another 5-10 years.

Miles Teller - July 18, 2023, 3:39 pm

I'd sell it all and just buy ETH and delete the for a few years and reap your reward in 5 years

I think what we're all saying and advising: Your future-self won't hate you if you sell all & invest into blue chips (Btc, ETH & ltc).

Just cash out OP and enjoy life elsewhere :) You said it yourself, it's not worth wasting more money to keep up with this sector. I'd ignore the mascots telling you to "buy xyz". Focus on what makes you happy.

Don't sell now, just forget about it until they start talking about crypto on the news every night.

WizardPLUG - September 1, 2023, 5:53 pm

BUY BTC AND HOLD BTC - i think this!

Neal Caffrey - September 1, 2023, 6:32 pm

Looking at your current allocation, I would suggest rolling it all into
HARRYPOTTERSONICBABYDOGEINU

serena3434 - September 2, 2023, 12:08 pm

To me i believe you should hold it.

capfck - September 5, 2023, 9:10 am

Keep them brother and take care of them, you'll see they'll be worth that money no matter how you look at it
