Thread: [HIRING \(PAID\) | NEW CRYPTO PROJECT.](#)

OnlineMoney - July 22, 2023, 1:43 pm

Hello all.

I am hiring for a new crypto project that is launching soon. Yes, it will be paid!

I am looking for a few roles.

1: I need multiple moderators for the Telegram / Discord for all timezones. Must be active and always talking in there

2: I need some full time shillers, a moderator can also do this if they have a lot of time. Basically posting on Twitter, other telegrams etc to get new people in the group.

3: I might need a developer for the website, not needed at this time but it is a possibility.

4: I might need a designer for logos and banners, again not at this time but will need a bit later.

If you have any other skills as well related to crypto or something you think might be useful let me know.

Please fill this out: <https://forms.gle/3kP2sjztu2cAFrZt9>

I will contact some people later this week.

If you want a bigger role like a partner in the project you can also let me know as well.

Thank you.

Went ahead and filled out your form, I'm a software developer and can do whatever you'd like whether it's smart contracts or web development.

I run a creative agency and can do any of your UI/branding/Animations/Motion Gfx and such. Feel free to reach out to me if you want to work with a professional team. If not, it might be cheaper and easier for you to find a freelancer to do it. Anyway, best of luck with this project.
