Thread: [Back to Back dayz. Day 5](#)

Nicholus - July 23, 2023, 4:43 pm

Welcome back guys. Didn't do a whole lot of digging yesterday but today, I think I'll do a bit. Looking into cryptocurrency and which ones are better to use. Seeing if they truly are untraceable and BTC mixing? Still contemplating getting an Upgrade on the hack forums account. Don't have a lot to express today as I didn't do a lot of digging yesterday. As always, hope everyone stays safe.

With all due respect, this isn't a blog. Nobody cares what you're doing day to day. If you have a question, ask it. If you have something to comment, then go for it. Otherwise, we don't need to know whenever you're wiping your arse.

I want to see him develop himself and make it into a blog, that would be pretty cool. HF needs content, so hopefully this will be lounge worthy. Let us see how far he can go.

Upgrading your accounts would be the best thing to do. Hoping to see you more active around the forum in the coming days. Just abide by the rules. ?

diablospartan - July 25, 2023, 11:37 am

Welcome and good luck and i think its a better idea to create a journey instead
Maybe start a method to make money online and keep us updated each day

Gody - July 25, 2023, 11:57 am

BTC mixing No, but you can use a no kyc exchange and swap: BITCOIN > XMR > BITCOIN for less

than 5 %

no kyc exchange and swap:

what is this? where can I find more info?
