Did they work :) ???

I will later post 100\$-200\$ random games steam keys just need to get affiliated with the forum a bit, and my real IP was blocked from accessing the forum for no reason even though I didn't use the forum before, it probably some firewall rule triggered.

Yes the codes worked, I left the other ones for others.

Are keys allowed on HF btw? Cause if not mistaken its not allowed. I think check the new rules now. But yea I got lots of them to trade or sell too if possible.

Not sure, i am new member, seen a lot of game related subforums so decided to throw few giveaways, don't see a reason for them being not allowed. By the way how t get vendor status?

Deany - July 24, 2023, 5:36 am

All gone? Too bad lol. Nice giveaway anyway!

Blockonome - July 24, 2023, 9:18 am

I am sure all of them are gone, so not going to try, however, I need to keep an eye out for this!

I think it only tells you which game you got if you redeem it within the steam client on a pc.

Obstinato - July 24, 2023, 11:39 pm

Got a free \$1 game. Easy win
