Thread: [Got the skills? I've got the plan.. Proxy-sales | Marketing | Over \\$50k+ In Sales](#)

Want to work with one of HF's most prominent V3ndors? In just crypto alone, using data from a single payment platform I've seen over \$50k+ in sales.

I'm not calculating crypto received in other platforms, nor any of the sales/revenue I've generated using my methods in PayPal, Stripe, Blockchain.com, Crypto.com etc. Just one single platform.

Sometimes building a product is not enough, you still have to market and sell it. Some people just don't want to deal with pre-sale questions or any promotional work.

They just want to focus on the product while earning at the same time. This is your reality when you work with me.

What I can offer you...

Marketing / Planning

Copywriting / Thread Designs / Signatures Promotional Work (Signature Buys, Stickies, Features, Sales Tags, Giveaways etc)

Pre-sales/Conversion (Answering questions and converting potential customers)

* And much more...

Got a product to sell?

Got a service to sell?

Hit me up, and let's start working on your next project.

Depends, there are people selling Telegram Scrappers/Mass DM bots here so I'm pretty sure that's allowed.
