Hi, I'm looking to partner with an individual for the Hackathon and even onboard/hire them afterwards if you're the right fit.

I've posted some requirements as well as qualities of the individuals we're looking to work with. If you're interested, just send me a DM with your portfolio and/or resume. You must be able to show me previous work, if not-- don't even bother.

?| EXPERIENCE REQUIREMENTSPython

Langchain

LLMs

Supabase (VectorDB - it's new. Just know how VectorDBs work pls)

MongoDB

Fast API

I don't have experience with LLMs or Supabase, but more than happy to quickly learn beforehand. I have extensive experience with FastAPI and Python in general and MongoDB.

I'm very hardworking and can bring myself up to speed pretty fast.
