Thread: [\[SOURCE\]MyBB Auto Poster From Blogs](#)

WebArt - July 29, 2023, 10:35 pm

Recently i made a MyBB Auto Poster From Blogs. it will create post from the blogs directly to your desired section. to check its new post time to time i set cronjob in every 30 min. Its post title and Description with all the photos and videos. see the picture bellow

Here Is the Source Code

PHP Code

```
<?php
ini_set('display_errors', 1);
ini_set('display_startup_errors', 1);
error_reporting(E_ALL);

define("IN_MYBB", 1);
require_once "global.php";

$website = 'https://indianexpress.com/section/world/';
$html = file_get_contents($website);
$dom = new DomDocument();
$dom->loadHTML($html);

$nodes = $dom->getElementById('north-east-data')->firstChild->childNodes;

function createPost($title, $message)
{
    global $db, $mybb;
    // type your Username here.
    $username = 'Username';
    // type your UID here.
    $uid = '1';
    // type your Forum Section FID here.
    $fid = '38';

    echo 'soumik';

    $exist = $db->simple_select("threads", "", "subject=" . $db->escape_string($title) . "", array(
        "limit" => 1
    ));

    $post_exist = $db->fetch_array($exist);
```

```
if ($post_exist) {  
    return;  
}
```

```
$threadData = [  
    'subject' => $db->escape_string($title),  
    'uid' => $uid,  
    'username' => $username,  
    'dateline' => time(),  
    'firstpost' => "",  
    'lastpost' => time(),  
    'fid' => $fid,  
    'lastposter' => $username,  
    'lastposteruid' => $uid,  
    'visible' => '1'  
];
```

```
$tid = $db->insert_query('threads', $threadData);
```

```
if ($tid) {  
    $postData = [  
        'tid' => $tid,  
        'fid' => $fid,  
        'uid' => $uid,  
        'subject' => $db->escape_string($title),  
        'username' => $username,  
        'message' => $db->escape_string($message),  
        'dateline' => time(),  
        'visible' => '1'  
    ];
```

```
$pid = $db->insert_query('posts', $postData);
```

```
if ($pid) {  
    $db->update_query(  
        'threads',  
        [  
            'firstpost' => $pid  
        ],  
        "tid=" . $tid . ""  
    );
```

```
$thread_count_query = $db->simple_select("threads", "*", "fid=" . $fid . "");
```

```
$threads_total = $db->num_rows($thread_count_query);
```

```
$db->update_query(  
    'forums',  
    [  
        ]
```

```

        'threads' => $threads_total
    ],
    "fid=" . $fid . ""
);

```

```
