Code Hackúman roam the wild of HF waiting to be found! Every post gives you the chance to uncover your very own egg. Do you have what it takes to hatch the egg and raise a Hackúman? Hackúman Egg is randomly Received from Posting ? or Require some kind of Requirements or Limits ? Thanks!

Yes, you have a random chance to receive while posting. You can have one of each egg and they decay after a while if you don't hatch them for the hackuman game.

Lol, I've got the red one by posting this answer.

You'll get more eggs if you keep more active on the forum by simply posting around the forum. Tomorrow will be the end of the 2nd season of Hum game and if you want to play the HUM game you will be needing more eggs. You can receive one each of every color on your account but it can only stay for a week and will be gone if you just have it on your account.

It's random, I've had like 5 eggs in 100 posts it averages at 1 egg per 20 posts for me.

Get those eggs ready for the 3rd season of HUM game and enjoy the game ?

Gather all the eggs you can get out of postings.

Good luck, have fun in the new season!

Any tips for a beginner?
