FREE Astrology Reading! Understand your soul! Find your soulmate, friends, business and more!

Welcome to the first day of the rest of your life where you fully understand yourself!

GUARANTEED! I know how you think, talk, love, move, what is the best business for you and so much more!

Why do you need to know this?

Everyone has a "shadow" or inner "demons"

Everyone has miracles and certain gifts in life!

When you know who you are in astrology, you will finally understand the "energy" of multiple personalities and how to balance them.

Leos are narcissistic, Pisces cry, Cancers are guarded and antisocial, Aries are angry, Gemini's are gossipers, Virgos care too much about other people's opinions, and more!

When you understand your whole self, you can balance what "demons" and what gifts you have! Let's see which business and lifestyle suits you best!

How about adding your chart and possible mixes? Are you a guarded Leo? Or a proud Cancer? Maybe a friendly Scorpio? Even a calm Aries? What about angry Libras?

There's so much more to you than your sun sign, and I'm here to help!

To be more successful in your life with money, with your physical body, with your emotions, and with your soul ..

you MUST understand your astrology!

PRIVACY POLICY:

I keep only records on paper and burn the paper after (ritual) each client.

You can send me your information through any encrypted messaging system or a website such as notepad pw or privnote

I detest in my soul and in my whole life the great darkness of all governments and law entities. Your information is safe and kept on paper only with pen and paper while I work on your chart and afterwards, burn to video and send to you, and the notes I send to you.

The information remains only in my mind and will remain a secret forever. I condemn all government entities and beings and declare their evil darkness to be the exact opposite of what I am.

Communication:

I prefer to speak in Telegram, Discord, or on the phone. I prefer to ask questions so you understand and can give a response based on your true interpretation of yourself and life.

If you really don't want to talk, I can potentially write everything for you. I prefer a combination of both.

Religion:

I believe in all light in all religions. This is the interpretation of the planets at the time of your birth. Nothing to do with any religion except the ultimate Creator who created the planets and you at the right perfect time and combination.
