Thread: [Man of the Match Announcement \(FIFA /FC Challenger\)](#)

Aeowulf - August 1, 2023, 8:17 pm

Excited to see FIFA/ESPN FC get a challenger. EA Sports has killed the joy in sports games. Now I just hope it will actually lead to a game.

What do you think?

What is Man of the Match?

=====

Man of the Match is a football video game for both consoles and PC. ???

It is free to play (No microtransactions!) , play to earn (Not NFT!), and built for the community and by the community.

In Man of the Match (MOTM), you can choose to play two main roles:

You can choose to play as a player?, and you can choose to play as a manager???

With state-of-the-art image capture technology, we will be able, by your personal mobile device, to scan your face, capture every detail, every wrinkle, and embed it into the game, giving you your very own, personal avatar, so you can manifest yourself in the game.

As a player, you and your new avatar will need to make the best choices for your football career, alongside your teammates, who will also have their own realistic avatars

A complete 11v11 multiplayer football video game where everyone plays themselves! ?
