Thread: [Complete offers on GPT without doing the offers!!!](#)

quackyboy - August 2, 2023, 12:52 am

Hello I have a method to complete offers on all offerwalls that use adjust (adgem, adgate, offertoro, if it has adjust theres a high chance you can complete it)

I've earned well over 30k with this one method over the last year (paypal and crypto) it's been used for the past year and a half by myself and a select few people who helped find out how to do it.

I'll attach a few pics of showing offers being credited but I can't explain too much into it without giving details of how to do it out

My selling price will be \$300 usd crypto and I will not be giving out vouches I'm happy to deal with a MM if you're paying the fee!

The pictures below are of a few different sites where I have been paid within the last few days all the way back to June

If you have any questions feel free to PM me

I'll be explaining what to do 1 on 1 with each person to make sure you understand what to do completely.

I've decided so it doesn't get saturated and smashed too much I'll be selling 10 copies.

FAQ:

Q: Can it be done in any country

A: Yes it can but each country has different offers, countries like India will not have many offers there where America will have lots

Q: Is it time consuming

A: It can be but anything that is guaranteed to work takes a bit of time

Q: How much can I earn each week

A: That can vary each week, it comes down to how much work you put in

Q: Is it automated

A: It's not a automated earning method.

Q: Do I need GPT experience

A: I recommend to use a GPT site for a while before trying because what I am selling is a method to complete offers on GPT sites there's no point going in not knowing what a GPT site is.

Q: Do I need a ID?

A: Some websites randomly select you to KYC, websites aren't apart of the method what I am

selling is a method to complete offers without doing them I highly recommend to research a sites before you buy!

TOS: I will not be giving a refund because this method is working! If you put in a little effort you will get the rewards. Also if the method gets patched or the offerwalls do not payout, Also no leaking / selling the method.

I AM SELLING A METHOD TO COMPLETE OFFERS WITHOUT DOING THEM IT SAYS IT IN THE TITLE!!!

If I give you a site to use that's just as a tester to show that what I am selling works, you need to find more yourself you also need to find offers I am selling a way to complete them not a list of offers that work, there are too many to list.

Can you PM me with details. I am interested and doing GPTs since 7 years with bulk accounts like swagbucks , Lootup and many more

peperita - August 6, 2023, 3:26 pm

I have purchased and received the method, and I will provide a more detailed review tomorrow.
For now I can say: This guide is worth it. It's worth every single penny you'll spend on it.

if you earned 'well over 30k' why are u selling it for 300\$ lol.

Because I've spoken to the other people who know the method and we are branching out and leaving the GET PAID TO scene why would we need to take it with us and no one use it when someone else can benefit, it also can be saturated and to be fair because I've made 30k doesn't mean I have that anymore bills do happen and life.

If you need to make silly comments why comment at all?

I've already sold it to one person who is happy and I'm awaiting there detailed review.

Thanks for the sales trash thought ?

Hmm, this is very interesting. Ill wait for more detailed reviews

Here my review

I've always been into these "rewards earning" websites and I'm always on the lookout for ways to quickly finish the offers that usually take a long time. I had heard about a method that could speed up the process a lot and let you earn a good amount from these offers in no time. I was kind of skeptical at first (who wouldn't? it's sounds too much good honestly) but when I saw someone willing to sell it, i said ok fuck it! i'm willing to give it a try.

Here's what I found:

The method is just like the original poster (OP) described: super simple, fast (offers get confirmed in just a few minutes or even seconds!), and you have the possibility to cash out right away! The OP was really nice and patient, guiding me through the method with videos and explanations in real-time. With their help, I completed an offer in no time. Even though I'm still pretty new to this, after about 20 minutes of instructions (only because i'm a newbie lol) I had already made \$60! And there were still lots of offers to do!

Once I got the hang of it, the method was really easy (maybe even too easy!). You can complete offers in just a few minutes! The OP was also really helpful whenever I had questions and even shared other websites and tips where to use this method to make even more money.

Usually, I'm cautious about buying methods from places like hackforums since most of the methods here are not good or they are straight up scams, but this one is a real gem. I'm serious.

I'd suggest grabbing the method quickly because:

1. you won't find it anywhere else on the internet, just like all the methods that actually works.
- 2) because it actually works you can easily make back the money you spend on the method in no time!

Will edit this post and include some earning screenshots

I can't thank the OP enough for sharing this method!

I am very interested in this method. Does method works worldwide? Any initial investment?

Thanks

Can you provide us with an update on how this is playing out? Any sort of proof is much appreciated too.

UPDATE

Hey! I apologize for not updating earlier, but life has been busier, especially in August due to vacations with family and so on. Hence, I don't have much time to spend online and have been lazy even with the method lol. That being said, the method is fantastic and it's work perfectly!

The offers get completed immediately without doing any work on it and depending on the offerwall, the offers can be credited instantly or within a matter of hours. While most of the more "juicy" offers go into a pending state, you can still make some money that you can withdraw on the same day.

With one account(EU) on just one site (you can do multiple ofc!), by completing most of the offers available through the method and waiting for the offerwall to validate them, I made around \$200 (both pending/instant). Did just made a shy 5\$ withdrawal to see if the account would allow it and it did go perfectly.

Since the offers are quite limited in Europe, I asked yesterday to the OP for guidance on creating a US account. Once everything is set up, I'll complete the offers available in America (just to give you an idea, my country has only a quarter of the offers available in the USA and they also paid a lot less, lol).

I'm sharing some screenshots; how you can see in some of this screenshots the task got completed within minutes from each other. Also today I made a new account on another site, just did one offer (just for trying) and in 2 hours got credited:

Just bought this method! The OP is pretty friendly and responsive. With 10-15 minutes of coaching I was able to pull out my first ~20 bucks in rewards. I will keep you guys updated, but so far I am impressed and am really happy with my purchase. Stay tuned!
