Thread: [Ezo's Coding Service | Programmer for hire](#)

Ezocain - August 7, 2023, 1:59 pm

Starting off, I will offer my services dirt cheap to build rep.

I am able to do mostly any task. As time goes on, I will specialize more where I see demand.

TOSI will not break the site ToS for you

I will not "hack" any social media accounts

Be precise in your terms

No refunds unless clearly stated while negotiating the contract

STATUS: Occupied

Could be cool if you included which languages you can code in, but anyways, it's nice to see another developer offering his services on here. Wish you the best of luck with sales.

telaviv - August 10, 2023, 10:39 pm

He was a great help, and i must admit i still need him, he inspired me. I recommend him, he does quality work at a reasonable price. He has a friendly follow-up and is honest about deadlines. *Not to mention that it has a very good OPSEC and therefore guarantees a high level of confidentiality and anonymity. See you soon.
