Thread: [3rd Challenge - Graphics recruitment](#)

7 - August 8, 2023, 10:25 pm

If you are a graphic designer or wish to move into this area this is the challenge for you.

You see the design of this group is next to no other.

I can pay to have the graphics done for thread design but thought if I am going to create a group of some really talented individuals... why not use this as an opportunity to a part of my growing group.

If you would like to enter this competition use the color scheme and create thread graphics.. such as separators and possibly custom reward designs.

Good luck to all.

NulldB

Even if people haven't applied (or may have via DM), it's a great way recruitment thread imo

Yes I have had mostly applicants via PM. But not as many as I would hope for but there are loads more to come...

Dev debugging and reverse engineering challenges are coming next

Envy - August 10, 2023, 10:30 am

Do you have any of the original assets (or source) for the graphics?

I can also fix whatever this is for you:

Motusora - August 10, 2023, 11:01 am

if im not busy i'd definitely try this .
when's the deadline ?

7 - August 10, 2023, 11:34 am

I have two places for graphic designers.
color theme same as my signature..

Dark Blood, Fallen theme... I think it says it all
be creative
