Thread: [What language should i learn for hacking](#)

Normie - August 10, 2023, 9:14 am

what language should i learn for hacking i dont a thing about it. but im so fascinated by hacking and i wanna learn.

also which tool or stuff i should have to learn and from where?

SoulZeh - August 10, 2023, 9:16 am

You mean what programming language? There are so many, most commonly used is probably c# or c++, there are 100s of videos on youtube where you can learn it, many books you can read too.

idk anything about their purpose. mainly i wanna learn a language for hacking so which one for hacking.

and it hard to find videos on youtube. i know there are many but which is better idk that
