Thread: [Shopify Merchant REF\\$Guide 2 SLOTS available AUTOPILOT \\$ EXPERT SUPPORT](#)

Swedi - August 11, 2023, 1:15 pm

Offering you a great deal/method, with expert support (me). Autopilot when you have done the starting points, then you can leave it at that or I recommend "checking" on stuff, you can go and work hours a day to get more refs.

If you got also language skills other than English, I know 4 languages so it can help you. But english is all that is needed and USA is dominant in this. "Heads up"

After your referral has signed up for Shopify, chosen an eligible plan, and paid their first full price subscription bill, your referral is counted as successful and you receive an email to notify you. A referral credit doesn't appear in your Shopify admin until the referral is counted as successful.

I have a method that is not against the terms (any that has will not rly work, so dont bother), and you can't go against the terms either it will terminate my stores, well they are in your hands, all emails/passwords will be changed, you can change your name/add bank to it, 2FA and so on. It will be yours after payment.

?TLDR: 90% AUTOPILOT, 1000\$ can be done in a week easily, even beginners can do this. If you have a brain, welcome! ?

This can be done in many simple ways, one of them is a little bit game changer that no one is utilizing, I got 4 different methods and they are semi-autopilot. I started 3 weeks ago and I've made 1400\$, and keep in mind that it not my main thing I focus on, I got other projects. I simply got no time for this right now working on another projects, and i made my money already and its not for me. But anybody who wants to make money, full blueprint here.

You can do this, some steps that might take 1-2 hours and then just wait and never do nothing again. Also keep in mind I am an expert in Shopify and sales, so that helped me but all what I did is explained in the course. Its a PDF and has a video with me explaining the AI method, which is working the best. You can also use your own imagination how to get clients, and remember only 2 people can buy and review first is needed, so no abuse happens. NO ABUSE/ANYTHING AGAINST TERMS OF SHOPIFY MERCHANT ALLOWED. PDF METHODS ARE 100% TOS FRIENDLY. Little interview will be done before purchase.

And about me, I am a developer and been doing dropshipping for 3-4 years as a side-hustle lets call it that, and no interest in Shopify anymore.

I will tell you how to make everything professional and nice, so people sign up with you (many many ways), choose a plan, pay it, you get paid 50-150\$.

You can read the Shopify information

<https://help.shopify.com/en/manual/your-account/merchant-referral>

I am not selling the method alone, no. And you can't share these with anybody, use it as your own

because you would lose money probably if you share these with some merchants. But sharing of file/teachings not allowed. Use it for yourself.

0/2 Spots taken: 208\$: Merchant Method PDF, Shopify Logins changed to yours, Expert Help from me.

(4 types, one AI with video explained, best working), and this is mostly autopilot once set up, if you want extra money you do the methods. Easy 500\$ week even for noobs, well I don't know for sure. If you have a brain and understand the simple things, then easy 1000\$/week if you set everything up, maybe do it couple hours a day 2-3 times a week.

? Will provide you images with my own AI tool to use, so you don't have to use editors or buy any designs regarding the method. And ready to use stuff is in there too, because this is for 2 people, just modified it a little of my own style. And I feel like the price is too cheap, so 10% cut or something if you are generous, not needed but something to think about if I help you too.

? OFFERING A GENEROUS OFFER + NEVER SEEN METHOD, GET UP YOUR MONEY. THIS IS NOT NORMAL REFERRAL WORK. THIS . WORKS . FOR . FREAKING LIFETIME!! NOT MONTHLY OR ANYTHING. ?
