Thread: [Equilibrium's General Recruitment](#)

Allelujah - August 12, 2023, 7:46 pm

Information Equilibrium is welcoming all walks of life. If you're looking for a home and are currently without a group go ahead and request to join. It's not required but you're welcome to post a short introduction about yourself and what you're interested in. I will vet the requests and not everyone who requests may get an invite. I will not be sharing the criteria I've set for entry. As long as you're a member in good standing, you should be accepted.

I don't currently have an end date in mind, and I'm only doing this since there's no point in having the SF sitting empty.

Thanks ?

I am closing this recruitment. We have approved 23 new members. Thank you to everyone who joined, and those who did not get an application please review your account and its current standing within the community.

clovaks - August 12, 2023, 8:18 pm

id love to be apart of the group! how do i apply? or do i apply by just replying to the thread? lol

Reactor - August 13, 2023, 8:50 pm

very nice i hope i get accepted

About me :

Age/Country : i don't like to share my age or country publicly

Experience : i am mainly back-end Dev i use Node.js framework and also i have very decent experience in Php , Mysql , also i have 3 years experience in Python

Work : i work for 2 company's in Dubai and Ksa remotely as back-end developer

always been fan of some great hackers so i use my coding knowledge in penetration testing and i have done private penetration testing bounty's

my english not so good but i am getting better i think

Undead - August 14, 2023, 12:42 pm

I've been looking for a group to join for a while now. I'm a pretty active member of the forum and have a background in IT support. Currently, I'm trying to learn a few things about cybersecurity. It would be good to connect with some other members, learn new skills and contribute to any projects.

Cooligan - August 15, 2023, 12:45 am

Genuine curiosity question:

Is the group back to being how it was when it first started? Or is it still more so a lounge group?

DashPHP - August 15, 2023, 5:53 am

Hey if there's a spot open I'll be happy to take one.

You already know who I am so hopefully I don't need an app.

StuffSneak - August 16, 2023, 7:27 am

Would love to be a part of Equilibrium. Suits nicely considering the state I am in my personal life right now.

This is StuffSneak a PG in Mechanical Engineering & Internet hobbyist. I run a biz in manufacturing sector & have a few online ventures running as well. Looking forward to be a part of EQ.

R^ptor - August 16, 2023, 1:17 pm

I would love to join. Need to meet more people on here lol

About me: I'm R^ptor. I've been an HF member for 9 years. I took a little bit of a break, but I'm back in full force. I'm 25, turning 26 soon, and I love making money online.

Goals on HF: Meet new people and gain more reputation within the site. I'm working on a few projects that I'd love to sell here in the future. I'm currently working on two projects. I believe that when they're finished, a group would be the perfect place to have people test them and vouch for their quality.

Skills and Hobbies: I love breaking things and trying to fix them. I can program in Java, Python, and I'm currently learning Rust. I also have some experience in web development. Additionally, I'm a total crypto nerd. As for hobbies, I collect old comic books as well as fossils.

Favorite HF areas: [Dark AI](#) and [Personal Life](#) but you can find me everywhere on this site ?

Solid group application ?

Glad to see that there's still members who are able to give a good group application.

Tech?NO - August 17, 2023, 1:24 am

This is Alex and I'm eager to join the Equilibrium private group. I'm passionate about IT, and crypto, and I'm excited to engage in diverse discussions, contribute positively, and support fellow members. I'm committed to upholding the group's values and creating a welcoming atmosphere. Also, this

would be my first private group.
