Ph4n70M Phr34K - August 17, 2023, 3:10 am

Looks great, as always.

Consider adding uac bypass.

DarkVision - August 17, 2023, 9:34 am

Hello!

Thank you for your always positive comments :-)

The downloader will attempt UAC bypass for powershell when adding the custom exclusions to Windows Defender.

Perhaps you meant UAC bypass for the payload itself? I always felt it to be more convenient to leave that task to the payload. But of course i can add UAC bypass for the payload itself for those who prefer it. Please let the ideas flow. lol ?

Thank You! :-)

Ph4n70M Phr34K - August 17, 2023, 2:48 pm

Thanks, that's exactly what i meant.

I'm amazed of your great work for years and wish you the best.

Optional ability to report successful executions to web-panel would be a neat addition. Anyway, great tool as always.

Vagabundo Legendario - August 17, 2023, 6:09 pm

buying soon look great

Haha, you cracked me up a little with that suggestion, because the original software actually has a PHP panel and callback code in the bot, but i stripped it out to make a "smallified" (is that a word) bare bones loader/downloader/dropper that did only apply WD exclusions and downloading and executing the payloads. But i do plan to add some sort of binder-ish functionality to spruce it up a

bit.

Thank You!

(Aug 17, 2023 06:09 PM)Vagabundo Legendario Wrote: [\[CITE\]](#) buying soon look great
Thank you for the positivity! ?

suduspoon02 - August 29, 2023, 10:04 pm

Look nice .. will buy soon.

Comrade - September 15, 2023, 9:35 pm

hello,

whats the generated BIN size?
Waiting for reply...

Cheers,
Comrade

DarkVision - September 18, 2023, 11:25 am

Cheers,
Comrade
Hello!

I apologize for the delayed reply. The size of the binary is around 180k. There is no unnecessary code, only the required measures for error checking. Since it's a former full botnet suite transformed into a smaller downloader, there is not much left to bloat.

(I edit this to mention that i should pause this thread while adding one extra feature. Perhaps i will do that).

Thank You!

DarkVision - October 14, 2023, 5:02 pm

I am closing the thread temporarily. Check back soon.

Sticky Bot - March 24, 2024, 11:49 am

Hi, I'm Sticky Bot. The owner of this thread has purchased a Paid Sticky. Hack Forums does not get involved in deals or deal disputes. We do not vouch for the product or the service offered by members. Please note that all deals are at your own risk. The sticky will expire on Apr 21, 2024. If you or a loved one are interested in buying a sticky please visit this page: [Buy Sticky](#). For more information about Paid Stickies you can read our [Help Doc](#).

dsvbacjdf - March 28, 2024, 4:59 pm

do you have discount for first time buyer

DarkVision - March 28, 2024, 5:51 pm

(Mar 28, 2024 04:59 PM)dsvbacjdf Wrote: [\[CITE\]](#) do you have discount for first time buyer

Hello!

The license for this tool is lifetime, and the \$30 is an introductory price. It's actually lower than before.

Best regards.

Comrade - March 29, 2024, 1:36 am

Hello, please check your HF convo. for address request

cltrade - April 12, 2024, 3:14 am

is it FUD or does it need crypting?

DarkVision - April 12, 2024, 5:06 am

(Apr 12, 2024 03:14 AM)cltrade Wrote: [\[CITE\]](#) is it FUD or does it need crypting?

Hello!

Whether or not something "needs" crypting is up to the user.

That said, since the bot immediately injects into the running instance of Windows Explorer and wipes itself from disk (provided the folder isn't read-only), it won't be plucked from the task list as easily as a "regular" app would.

Both my own experience and feedback has been very positive.

Lucidif3r - April 12, 2024, 5:26 am

I know this isnt a thing for you yet but are there any plans for a darkvision stealer in the mist of the future???

cltrade - April 13, 2024, 3:16 am

Okay, whether or not it needs crypting is up to me, I understand, also your explanation indicates chances of being runtime UD. But the main question; is it FUD? does it get detected at scantime/runtime?

DarkVision - April 14, 2024, 10:58 pm

The answer to your question is in my previous response.

SIM-5481312 - April 18, 2024, 12:01 am

So this only work with native file, what about net file can it work with it?

DarkVision - April 18, 2024, 12:40 am

(Apr 18, 2024 12:01 AM)SIM-5481312 Wrote: [\[CITE\]](#) So this only work with native file, what about net file can it work with it?

Hello!

The downloader is itself a native binary, which in turn can download and launch any binary and document. The downloader resides inside Windows Explorer and downloads your payload targets from the locations that you specified during bot build. The downloader can also be configured to wipe itself from its location after injection.

I hope this answered the question.

bojicA - April 18, 2024, 3:01 pm

okay. please exactly what is this tool going to do. can someone explain to me because it seems like what i need.

also, how much is it and do you accept PM?

Net Runner - April 18, 2024, 4:51 pm

Another very cool quality product from you bro , i will have to test it when i have some time

7 - April 18, 2024, 5:03 pm

It looks very interesting and is very cheaply priced.

Use this with one private solid crypt along and update your stubs regularly on your download server

Nice

When I start back in this area, this is a definite purchase

SIM-5481312 - April 19, 2024, 10:04 am

Does it work with any file ?

Mine is .bat that is why i am asking

Py_Dev - April 21, 2024, 12:29 pm

Looks very good. You always have great tools. GLWS op!

SIM-5481312 - April 25, 2024, 3:23 am

Where is the seller of this tool bro, i have wrote here for day you dont reply. pls we need you to be active i want to buy but whee are you?

Dogus1337 - April 26, 2024, 6:32 am

seems good can i buy with ltc

Also do you have a website ?

SIM-5481312 - April 28, 2024, 4:29 am

Bro are u one now with your fixing?

SIM-5481312 - May 10, 2024, 10:40 pm

Is there any hope in this waiting for so long now

DarkVision - May 11, 2024, 10:17 am
