Thread: [NEED A CODER FOR LONG TERM JAVASCRIPT HTML PHP & MORE](#)

Professional Hacker - August 18, 2023, 7:07 pm

Hello,

i need a professional or someone very good at the following for long term, HTML JavaScript PHP PYTHON C# and C++ for long term, i'll be paying for any project or Work you do for me, and I'm willing to keep you for a long time since I'm always having homework's, tasks and project to run atleast every month or 2.

Please your pay and charges should be reasonable, not too much cause i'm not rich yet!!! also drop your DISCORD if you have one

Thanks. [warn]

banonkiel - August 20, 2023, 3:51 pm

Pretty interesting tech-stack you got there.

I think I can do a thing or two for you, Add me on discord @banonkiel or DM me onsite with more details.

also my pricing is pretty decent as long as the tasks aren't too crazy.

elipheleht - August 20, 2023, 5:13 pm

Hi I can do the HTML, PHP and Javascript pretty well for you.

My telegram: @elipheleh

You just have to get another person for the other two :)

gyxi - September 15, 2023, 7:11 pm

Hello, please feel free to reach out to me on Telegram at the username @[deleted]. I'm an experienced developer skilled in C#, .NET, Laravel, PHP, HTML, CSS, JavaScript, Bootstrap, and jQuery. Additionally, I possess a solid knowledge of web hosting concepts. I hold certifications as a full-stack developer in the languages i mentioned, and I can provide evidence of these qualifications. Currently, I am actively working on two projects, which I can demonstrate during our discussion. When you contact me on Telegram, I will promptly share my GitHub profile link. I await your message and look forward to connecting with you. [warn]

DashPHP - September 16, 2023, 12:22 am

I have 12+ years of experience in the web sector. PHP is my shit brother. Let's work.
