I have worked with most (if not all) languages listed here.

As long as the tasks are reasonable, I think I could be your guy, got a discord so we can talk? (or just dm me onsite)

Check my profile brother, 12+ coding I am positive I can help you in any web-based scenario.

However I am not cheap because I am a full time entrepreneur and with that I am already super busy on my own stuff.

Hmu!
