Thread: [anyone proficient with SEMrush?](#)

Loot™ - August 24, 2023, 8:19 am

I am trying to learn this software. I dont understand it. Any tips? Trying to SEO my website to retain higher traffic. I have 1,000 prospect back links. I dont know how to send them emails? Where do I get that information?

WebArt - August 24, 2023, 8:21 am

ya i am regularly using SEMrush. but for your-case you have email them all for posting your article or backlinks

i think first you collect list of website from SEMrush. then use email grabber to grab emails. after that you can manually send them email or use smtp email sender

is the email grabber on semrush?

WebArt - August 24, 2023, 12:25 pm

no its seo tool. not for grab email. first create list of website. then i can make a script to find emails from that websites
