I would like to ask everyone how you think about Japan's nuclear sewage discharge. If you need it, please leave a message, and I will publish some of the loopholes I found on Japanese websites here.

WebArt - August 25, 2023, 12:06 am

haha i don't think anyone from here want it. but this project release more than 1m tonnes of tainted water into the Pacific Ocean.

that's is very harmful for us

Haha, I mean the sql vulnerability for your japanese website

WebArt - August 25, 2023, 1:25 am

oh lol i thought different. and here is lots of people can do it.

DashPHP - August 26, 2023, 1:11 am

Yeah it's obviously not very good but what can they do. Huge problems imo.

Sectoradmin - August 26, 2023, 5:47 pm

Japan is literally killing off their own people, spraying pesticides imo the air, mists(gas.) And bending the rules of life itself.
