Please recommend good learning resources for beginners to learn hacking

whitepearl - August 27, 2023, 4:15 am

You could try <https://academy.hackthebox.com>

Taker66 - August 29, 2023, 12:56 am

yeah you could try HackTheBox or TryHackMe

it has contained lessons that give you the core concepts you can add to your arsenal like how to use certain tools and use exploits

also do CTF's (google this if you dont know what a CTF is) which gives you practice and experience on exposed machines and give you a starting line to go from

jinxypoo788 - August 29, 2023, 1:07 am

Thank you to everyone that put in good websites like try hack me never knew it existed

tptl - September 7, 2023, 1:50 am

Thank you very much!!!!!!

Qijes2 - April 15, 2024, 12:55 pm

gonna use it thanks bro.

SDdsdfl - April 16, 2024, 12:55 pm

That's Awesome! Will definitely use

PlssazaPlz - April 18, 2024, 5:02 am

thanks alot! CTF idea is a nice start

SIM-5494023 - April 18, 2024, 8:42 am

Thank you very much!

HackTheBox or TryHackMe this is the best way for beginners

Waterboy - April 28, 2024, 3:52 pm

I agree TryHackMe or HackTheBox is the best, I am learning a lot from both. I also use ITPro.tv they have a pretty great hacking course for beginners.
