Thread: [DoorDash B4U Method - 3 Copies Only](#)

backlash4 - August 27, 2023, 6:48 pm

ONLY SELLING 3 COPIES

I am selling a bulletproof DoorDash ordering method which is used by some of the top B4U guys on discord/tele, the same servers that are making hundreds/thousands of dollars daily. While this method has some old components, the setup of it is extremely unique and specific to ensure there are no issues (issues such as: orders not going through, account getting flagged immediately, etc).

The method is literally 1 page, I get straight to the point but am available to guide you through the process and answer any questions you have.

The few B4U guys currently using this are confident that this will not be patched anytime soon, as the setup makes it extremely difficult to detect anything being done wrong. This method has been used for nearly a year already and continues to hold strong.

Additional points:

- This does not involve carding.
- You can easily make hundreds daily if you put in the time to place orders - you can partner up with existing B4U groups (they take a small commission but provide the traffic/orders) or create your own (involves more work in the beginning but you keep all the profit and can even hire people to work for you).
- 1 order typically takes 5 minutes to place using this method.
- I provide you all the resources, I can even refer you to some B4U people who are almost always hiring workers.
- Initially takes 2-3 days to get started because of something you need to do and wait for in the beginning.
- Why am I selling? You have to put in the time to make good money. You can do a handful of orders a day and be happy with that but that's not in my 'time' interest. I got a promotion at work so I'm working 9-7 now and it's just not worth it for me. Also, as I mentioned, I don't expect this method to get patched and I don't think anyone would be dumb enough to leak this when you're basically milking a cash cow.

Price: \$1,000

This price includes the method, resources, B4U groups to join, and lifetime support.

I'll give 1 vouch copy for \$750 to a reputable member.

Please don't waste my time. If you are generally familiar with how B4U works and/or have seen a previous (now dead) method of any kind, then you know this is one of the best opportunities to make quick cash and run a business.

How much money (out of pocket) would I actually be spending for say a typical order of 30\$ of food, and like ~\$10 for fees + tip?

What kind of orders can you do with this method and what are the costs to get set up?
