What do you guys think about this, Mortal Kombat is personally one of my favorite fighting games and I love to see that they are going to in the time-line to the origin off all the characters.

What is your opinion about this game, let me know.

Omniscient - August 28, 2023, 12:31 pm

Just doesn't do much for me. I'm okay with fighting games being pure player pick and fight.

Still more of a fan of how Tekken presented the characters.

Yeah that's true, Tekken is more a pick and fight game. I've grown up playing more Mortal Kombat then Tekken because I liked the background story of the fighters more, but both are good fighting games.

Those Tekken 8 gameplays look crisp.

Horrible idea.

Lmao I did that was the previous mortal kombat, those graphics on the swtich are painful, nokia 3310 would have better performance.

Prettykitty - October 5, 2023, 6:25 pm

The scenes are so brutal.. I like the slow motion.. kind of reminds me of those elite sniper scenes.

Lmao, I hate my switch so much lol. My wife got me it years ago and I played it for 10 minutes on Animal Crossing and put it away. Never played it again. Has anyone else played this on a different console, is it any good? Are the fighters still very stiff?

Tekken on Sega Saturn was the best fighting game I played so far.

I think I played Tekken on original xbox and beat it all the way through. It was my dads game and he came home pissed off that I beat it.

I liked Marvel vs Capcom 3. That was the last of those stand up fighting games I've played.

It's on all the consoles and PC. If you type "mortal kombat one pc" in google you'll find plenty.

Prettykitty - October 8, 2023, 5:49 pm

I've only played mortal kombat once I think, it was ok.

After seeing the campaign for this years Mortal Kombat I would say I' preferred the last MK more.

This year it's just messing with the story times. Big increase in the GFX though, the faces have more emotion in this game.

Alien8ed - *October 13, 2023, 9:26 pm*

I've been a fan of Mortal Kombat since the 90s and I own every game in the series.

About the MK1, the gameplay and visuals are fantastic, the content is lacking. Invasion mode becomes boring after the first two worlds and the AI with armor on every move is tedious.

It is still an excellent game but I honestly expected more from this new version.

Prettykitty - *October 13, 2023, 9:34 pm*

Kind of want to play this new Mortal Kombat! Sounds fun.
