Looks very interesting. Do these backlinks help you get ranked easily on Google? Any proof?

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

? Edu and Gov backlinks (links from educational and government websites, respectively) can potentially contribute to building domain authority which is one of many ranking factors for search engines like google.

Domain authority is just one of many factors that search engines consider in their ranking algorithms.

Edu and Gov backlinks can contribute to building domain authority, but they should be part of a comprehensive and well-rounded SEO strategy.
